

“It’s Not Good For Man To Be Alone”

Genesis 2:18

~A.L. Moss, Sr., M.Th.

God took the man and put him in the Garden of Eden. The word Eden in Hebrew is referring to order, it also means ‘Spot’, delightful spot and an open door. It’s a spot on the earth where for a moment God has an open door from heaven on earth. That’s why God put man in His presence. Eden is not a place, it’s an environment, an atmosphere, that’s why scientists and archeologists can’t find it, it’s the presence of God.

The first thing God gave the man was His presence, Eden. So, the first thing man needs is not a woman, it’s the presence of God, and a woman should meet a man in the presence of God. Now some women will leave the presence of God by going into the worldly place to find a man, and then try to drag him back into the presence of God! Eve met Adam in Eden! The second thing God gave man was work, ***Genesis 2:15***. God gave man work before He gave him a woman. The third thing that happened was God told Adam to cultivate; which means to bring out the best in everything around you and to make everything fruitful. God only said that to the man because He will never give man a finished woman. The man was created by God to create what he wants, cultivate the woman that’s in your head.

The Bible says Christ washed the Bride with His Word and presented her to Himself, ***Ephesians 5:25-27***. The fourth thing that happened is God told the man to guard the garden. The man is supposed to be the protector of everything under his care. God gave man a stronger body mass to protect the woman, not abuse her. The final thing God gave the man was His Word. God told Adam don’t eat from the tree. God never told the woman about the tree, which means the man was the only one who got the Word of God. His job was to teach his wife the Word of God, ***Genesis 2:15-17***. Then God pronounced, ***“it’s not good for man to be alone”, Genesis 2:18***. What man? The man who is in His presence, who can cultivate you, protect you and

teach you God's Word, this man should not be alone! But, if you meet a man who doesn't like God's presence, he's not working, won't cultivate you and improve you, refuses to protect you and don't know God's Word, it's good for that man to be alone! Let the church say Amen!

Why Did God Create Woman?

Here a little extra something! God describes why He created woman in two words *Ezer Kenegdo*. You won't find these two words in any modern-day Bible only in the original Bible manuscripts. *Ezer* means help and *Kenegdo* means against him. So, how is this possible, are you against him or helping him? God says she's both. The woman was not designed to always be nice to her husband, respect yes, but not always accommodating. She was designed to push you in order for you to grow stronger and help you achieve God's purpose and destiny, that's *Ezer Kenegdo*.
