A MESSAGE FROM THE ELDERS:

Fellowship Hall Remodeling Update

As everyone is aware, we are in the process of remodeling our Fellowship Hall. Early in the planning stages, there was considerable enthusiasm that the project would be completed by late September. Well, here we are in October, and nary a hammer has been swung! It's no surprise, then, that the obvious question on many minds is, "Where do things stand?"

Although much of the work has gone unseen, we have actually made considerable progress. A new kitchen design has been completed, including all-new cabinets, appliances, and fixtures. Engineering plans for the strategic removal of walls to enlarge the dining area have been drafted and approved. The plans also include a covered walkway from the parking lot to the front entrance, renovated restrooms, new paint and flooring, and an updated heating and cooling system. The cabinets and appliances have been ordered and are awaiting delivery, and a new water dispenser was installed earlier this summer.

So, what's holding things up? Because this is a commercial project, the necessary county permits must be obtained before construction can begin. Unfortunately, the permitting process can be lengthy and tedious. We continue to move forward, with hopes of receiving our permit soon. However, "soon" is a relative term when dealing with government processes and could mean a few more weeks—or even months.

In the meantime, we have a wonderful opportunity to practice one of the fruits of the Spirit: patience!

Thank you for your continued support, understanding, and patience as we work through the permitting process. We look forward to the day when we can finally pick up those hammers and begin updating our Fellowship Hall into a space that will serve our congregation and community for years to come.
