

A Story of Hope

KIM'S STORY

There are seasons in life when it feels like you're just trying to make it through the day. That was true for our family.

Week after week, the messages about purpose, character, finding peace, and choosing unity gave us exactly what we needed. It wasn't one talk or one moment that changed everything. It was the steady encouragement over time that slowly replaced fear with hope and reminded us that healing is possible.

As we walked through one of the hardest seasons of our lives, we found language for what we were experiencing and the courage to keep moving forward. Those conversations didn't just impact our Sundays—they shaped the way we lived every day.

Looking back, we're not the same family we were when we first walked through the doors. Our relationships are stronger. Our lives have changed. We found opportunities to grow, serve, and take meaningful next steps together. Today, we're living a completely different story than the one we thought we'd be living.

EHills helped a mom find her footing again and helped two children find stability and hope. Together, we discovered a new foundation for life. What once felt uncertain is now marked by hope, healing, and a future we never imagined possible.
