

CLASS PERIOD	TIME	TUESDAY	
		CLASSROOM 1	CLASSROOM 2
Period 1	8:45 - 9:30	<p><u>Kindergarten Early Phonics (reading/writing/phonics)</u> Teacher: Mrs. Jessie Description: This class builds strong pre-reading skills through systematic phonics instruction. Students explore letter sounds, practice blending, and begin reading simple words and sentences. Lessons feature hands-on activities, games, and repetition to strengthen early decoding skills and boost reading confidence. Curriculum: BJU Focus on Fives along with TpT resources Homework: There will be take home work to be complete each week. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration.</p>	<p><u>1st Grade Art Class:</u> Teacher: Mrs. Lyndie Description: In this class we will study the basic elements of art such as shape, color, and texture as well as introduce students to famous artists and their works. Students will create something with each lesson using many different mediums. Curriculum: A culmination of Artists Books Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>
Period 2	9:40 - 10:25	<p><u>1st Grade Phonics:</u> Teacher: Mrs. Jessie Description: Students receive clear, step-by-step instruction in vowel patterns, blends, digraphs, and other foundational phonics skills. They practice reading both individual words and connected text, building confidence as they decode. Through hands-on activities, guided practice, and meaningful reading experiences, children strengthen accuracy, fluency, and overall reading proficiency. Curriculum: BJU Homework: There will be take home work to be complete each week Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration</p>	<p><u>Kindergarten Art Class:</u> Teacher: Mrs. Lyndie Description: In this class we will study the basic elements of art such as shape, color, and texture as well as introduce students to famous artists and their works. Students will create something with each lesson using many different mediums. Curriculum: A culmination of Artists Books Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>
Period 3	10:35 - 11:20	<p><u>4th / 5th Grade Bible</u> Teacher: Mrs. Katterin Description: This class will study the understanding of the New Testament as the culmination of God's big story of Creation, Fall, and Redemption. Our study will lead us through Jesus's life and earthly ministry through the Gospels. Additionally, it teaches students the essentials of Bible study and interpretation through teacher modeling with questions and answers. As they develop an understanding of the main themes that run throughout God's redemption plan-glorious, kingdom, covenants, divine presence, law and wisdom, and atonement and priesthood-they are confronted with their need for Christ. Students will read a passage of scripture at home with their families, then complete a lesson on the passage in class each week. Students will learn how to memorize and understand scripture through a weekly memory verse activity. Students should have a Bible that they can use at home, and a journal or notebook to bring to class each week. Curriculum: BJU Bible and The Gospel Project for Kids Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration.</p>	<p><u>2nd & 3rd Grade Art Class:</u> Teacher: Mrs. Lyndie Description: In this class we will study the basic elements of art such as shape, color, and texture as well as introduce students to famous artists and their works. We will study artists of all types and their styles. Students will create something with each lesson using many different mediums. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>
Period 4	11:30 - 12:15	<p><u>2nd / 3rd Grade Bible:</u> Teacher: Mrs. Katterin Description: This class will study the understanding of the New Testament as the culmination of God's big story of Creation, Fall, and Redemption. Our study will lead us through Jesus's life and earthly ministry through the Gospels. Additionally, it teaches students the essentials of Bible study and interpretation through teacher modeling with questions and answers. As they develop an understanding of the main themes that run throughout God's redemption plan-glorious, kingdom, covenants, divine presence, law and wisdom, and atonement and priesthood-they are confronted with their need for Christ. Students will read a passage of scripture at home with their families, then complete a lesson on the passage in class each week. Students will learn how to memorize and understand scripture through a weekly memory verse activity. Students should have a Bible that they can use at home, and a journal or notebook to bring to class each week. Curriculum: BJU Bible and The Gospel Project for Kids Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration.</p>	<p><u>4th/5th Grade Art Class:</u> Teacher: Mrs. Lyndie Description: In this class we will study the basic elements of art such as shape, color, and texture as well as introduce students to famous artists and their works. We will study artists of all types and their styles. From abstract to the renaissance, modern and pop art we will cover a little bit of everything. Students will create something with each lesson using many different mediums. Curriculum: A culmination of Artists Books Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>
Period 5	12:25 - 1:10	<p><u>4th Grade Math</u> Teacher: Mrs. Jen Description: Division is presented as the inverse of multiplication. Single-digit division facts are learned and the concepts of division and place value are applied when solving long division problems. Recognizing and generating equivalent fractions: Understanding addition, subtraction, multiplication, and division of fractions and mixed numbers. Curriculum: Math U See Delta & Epsilon & BJU 4 Homework: There will be take home work to be complete each week, about 20 minutes per day depending on student. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration.</p>	<p><u>6th/7th/8th Grade Art Class:</u> Teacher: Mrs. Lyndie Description: In this class we will study the basic elements of art such as shape, color, and texture as well as introduce students to famous artists and their works. We will study artists of all types and their styles. From abstract to the renaissance, modern and pop art we will cover a little bit of everything. Students will create something with each lesson using many different mediums. Curriculum: A culmination of Artists Books Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>

CLASS PERIOD	TIME	TUESDAY	
		CLASSROOM 1	CLASSROOM 2
Period 6	1:20 - 2:05	<p><u>Personal Finance 10th-12th Grade</u> Teacher: Mrs. Jessi Description: This course equips students with the knowledge and practical skills needed to navigate the financial responsibilities of adulthood with wisdom and confidence. Students will learn how to manage money responsibly, estimate income, prepare basic taxes, create and maintain a budget, plan for savings and investments, evaluate banking options, understand credit and debt, explore insurance needs, and develop wise purchasing habits. Through real-world application and practical scenarios, students will build lifelong financial skills that foster independence, stewardship, and sound decision-making. Curriculum: A culmination of books/resources Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration.</p>	<p><u>6th/7th/8th Foundations of Healthy Living Class:</u> Teacher: Mrs. Courtney Description: God created our bodies with incredible detail and purpose! In this engaging and Christ-centered health course, students will grow in their understanding of how the body's systems work together, the importance of hygiene, nutrition and food groups, safety, and wise stewardship of God's creation. Through interactive lessons, games, hands-on activities, and occasional outdoor learning experiences, students will actively explore what it means to care for their bodies as a gift from the Lord. Our goal is not only to build knowledge, but to cultivate gratitude, responsibility, and joy as students learn to honor God through healthy choices and thoughtful living. Curriculum: Lifepac Healthy Living and Variety of resources. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>
		<p><u>6th/7th/8th Grade Bible</u> Teacher: Mrs. Katterin Description: This class will study the understanding of the New Testament as the culmination of God's big story of Creation, Fall, and Redemption. Our study will lead us through Jesus's life and earthly ministry through the Gospels. Additionally, it teaches students the essentials of Bible study and interpretation through teacher modeling with questions and answers. As they develop an understanding of the main themes that run throughout God's redemption plan—glory, kingdom, covenants, divine presence, law and wisdom, and atonement and priesthood—they are confronted with their need for Christ. Students will read a passage of scripture at home with their families, then complete a lesson on the passage in class each week. Students will learn how to memorize and understand scripture through a weekly memory verse activity. Students should have a Bible that they can use at home, and a journal or notebook to bring to class each week. Curriculum: BJU Bible and The Gospel Project for Kids Homework: Students will expand their learning through character studies and presentations throughout the year. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration.</p>	<p><u>9th-12th Grade Culinary Arts & Foundations of Cooking</u> Teacher: Mrs. Lyndie Description: This hands-on Culinary Arts course introduces students to the art and science of cooking while earning a Fine Arts credit. Students will learn how to develop balanced flavor profiles, pair spices and seasonings with proteins and vegetables, and thoughtfully plan complete meals. Throughout the course, students will gain insight into essential cooking techniques, foundational kitchen skills, and the food science behind each dish they create. From knife skills and basic preparation to more advanced culinary methods, demonstrations and guided practice will help students grow in confidence and creativity in the kitchen. As students progress from foundational skills to more advanced techniques, they will not only learn how to follow recipes, but how to understand flavor, think critically about ingredients, and develop competence in meal preparation. This course equips students with practical life skills while fostering creativity, precision, and appreciation for the culinary arts. Homework: Students will be required to provide students are expected to cook at home each week and bring either: 1-Notes/reflections on the cooking experience, including observations, challenges, and any questions. 2-Occasionally, the finished dish itself for class discussion and tasting. Cooking at home is an essential part of the learning process. Weekly assignments will help students build confidence, refine techniques, and develop a deeper understanding of flavors and ingredients. Tip: Be prepared—some weeks your creation may be shared with the class! This is a fun and hands-on way to explore culinary skills together. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration. Required: This class will have some projects that will require purchasing of items personal to each student.</p>
Period 7	2:15 - 3:00		

CLASS PERIOD	TIME	WEDNESDAY	
		CLASSROOM 1	CLASSROOM 2
Period 1	8:45 - 9:30	<p>2nd Grade Math: Teacher: Mrs. Melanie Description: We will dive into understanding place value and using it to add or subtract, fluently add any combination of whole numbers, solving for an unknown addend, fluently subtracting any combination of whole numbers, story problems, telling and writing time by hours and minutes, understanding/adding/subtracting money, measuring and estimating length with inches, feet, centimeters, and meters. We will also express differences between numbers as inequalities, finding the perimeter of any polygon, and interpreting data in plots and graphs. Curriculum: Math U See Beta and BJU 2nd Math Homework: There will be take home work to be complete each week, about 10 minutes per day depending on student. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration</p>	<p>3rd Grade STEM & Science Explorers Teacher: Mrs. Heather Description: In this hands-on course, students explore God's creation while developing a biblical worldview of science. Through STEM activities, experiments, inquiry, and project-based learning, students practice science process skills, ask questions, solve problems, and communicate their discoveries. Along the way, they learn to defend the truth that God created all things, understand the purpose of science, and explore why people are uniquely important in His creation. Curriculum: BJU and Various STEM projects. Homework: There will be take home projects to complete. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>
Period 2	9:40 - 10:25	<p>3rd Grade Math Teacher: Mrs. Melanie Description: This class will use strategies based on place value and properties of operations to multiply, solving for an unknown factor, measuring and computing area, relating concepts of area to addition and multiplication. Additionally we will use skip counting as a precursor to multiplication by teaching skip counting songs, adding and subtracting time in hours and minutes, multiplying/adding/subtracting U.S. currency and standard units of measure, recording/interpreting data, understanding of basic fractions and estimating and solving measurement problems Curriculum: Math U See Gamma and BJU Math 3 Homework: There will be take home work to be complete each week, about 10 minutes per day depending on student. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration.</p>	<p>2nd Grade STEM & Science Explorers Teacher: Mrs. Heather Description: In this hands-on course, students explore God's creation while developing a biblical worldview of science. Through STEM activities, experiments, inquiry, and project-based learning, students practice science process skills, ask questions, solve problems, and communicate their discoveries. Along the way, they learn to defend the truth that God created all things, understand the purpose of science, and explore why people are uniquely important in His creation. Curriculum: BJU and Various STEM projects. Homework: There will be take home projects to complete. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>
Period 3	10:35 - 11:20	<p>3rd Grade Social Studies: Teacher: Mrs. Katterin Description: Students will learn all about communities on local and national levels; while understanding how important their own place is in our society. Students will learn to evaluate society and their role in it through the lens of God's Word! Using engaging stories, artwork, maps, graphs, and discussion questions, this class offers age-appropriate, biblically based instruction in geography, culture, government, citizenship, and economics. Students will learn through hands-on classroom activities, with the opportunity to take a deeper dive through projects and community service throughout the year. Students will need a dedicated folder or binder for this class. Curriculum: BJU Heritage Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>	<p>4th-5th Grade Science: Teacher: Mrs. Jaime Description: Dive into the exciting world of science with hands-on experiments and real-world problem solving! Students will investigate energy, waves, biological systems, earth systems, and engineering design, exploring concepts like power, frequency, living creatures, and innovative engineering solutions. Each week, students will complete brief at-home activities to prepare for class, where they'll apply their learning through experiments, challenges, and hands-on discovery. Active participation at home and in class is key to fully engaging with this course and mastering the scientific skills that real scientists use. Curriculum: Sonlight and Various Materials Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>
Period 4	11:30 - 12:15	<p>5th Grade Math Teacher: Mrs. Jen Description: This class extends the student's concept of place value to the right of the decimal point. Students learn to complete core operations with decimals. The connection between fractions and decimals is presented. Fractions are presented in an intuitive way with visual explanations of equivalent fractions, common denominators, and fractions and numbers larger than one. Curriculum: Math U See Epsilon (some MUS Delta and Zeta) and BJU 5 Homework: There will be take home work to be complete each week. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration.</p>	<p>8th/9th Grade Physics Science Teacher: Mrs. Jaime Description: This course offers a dynamic introduction to physics, energy, electricity, and more, connecting big scientific concepts to human abilities and everyday life. Students will explore how the natural world works and how physical principles affect human performance. Each week, students will complete short at-home activities to prepare for class, where they'll dive into experiments, hands-on investigations, and problem-solving challenges. Active participation at home and in class is key to fully engaging with the course and mastering the skills of real scientists. Curriculum: Sonlight and Various Materials Homework: Weekly homework is required and participation in class. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>
Period 5	12:25 - 1:10	<p>6th Grade Math Teacher: Mrs. Jen Description: This class extends the student's concept of place value to the right of the decimal point. Students learn to complete core operations with decimals. The connection between fractions and decimals is presented. We will extend our skill into pre-algebra and the connection of algebraic equations. Curriculum: Math U See Zeta Homework: There will be take home work to be complete each week, about 20 minutes per day depending on student. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration.</p>	<p>10th-12th Grade Conflicts through Literature Study Teacher: Ms. Kerry Description: All great pieces of literature need strong conflict. Conflict can be divided into four main categories: man vs man, man vs self, man vs society, and man vs nature. In this class, students will read four novels each focusing on one of these types of conflict (title to be announced).. Students are expected to read and do assignments so as to be able to participate in a weekly Socratic Seminar discussion. Formal literary critique will be taught so as to write in this genre at the end of each novel. Homework: students are expected to read and prepare for seminars each week. Students will also be expected to complete a project by the end of each novel. Homework time may vary each week depending on chapters needed to complete. Projects may be worked on as students read helping with the completion of this task. Class participation in discussion is mandatory. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>
Period 6	1:20 - 2:05	<p>10th-12th Grade Twentieth Century History--The US and the World Teacher: Ms. Kerry Description: When teaching either US or World History, there never seems to be enough time to get to the all important 20th century that has had great impact on current events and world conflict. This class will start with the US Industrial Revolution and move through WWII (the war to end all wars), the rise of Communism, and the rise of Islam yet again. Students will be expected to do reading and research assignments as well as a project or two (we may even take on a novel that reflects a theme of this historic time period). Class is geared for upper high school level students. Homework completion is imperative for success in this class. Homework: Weekly reading and question completion is required for this class in order to receive a full picture and understanding of the time in history. Approximated two hours of homework should be expected. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>	<p>6th-7th Physics Science Teacher: Mrs. Jaime Description: This course offers a dynamic introduction to physics, energy, electricity, and more, connecting big scientific concepts to human abilities and everyday life. Students will explore how the natural world works and how physical principles affect human performance. Each week, students will complete short at-home activities to prepare for class, where they'll dive into experiments, hands-on investigations, and problem-solving challenges. Active participation at home and in class is key to fully engaging with the course and mastering the skills of real scientists. Curriculum: Sonlight and Various Materials Homework: Weekly homework is required and participation in class. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>

CLASS PERIOD	TIME	WEDNESDAY	
		CLASSROOM 1	CLASSROOM 2
Period 7	2:15 - 3:00	<p>7th Grade Math Teacher: Mrs. Jen Description: In this class, students will learn the basic rules of solving equations using the associative, commutative, and other properties. Simple operations with polynomials are demonstrated with place-value blocks for conceptual understanding before being taught conventionally. Geometry concepts include surface area, volume, and the Pythagorean theorem. Curriculum: BJU 7, MUS 7 and additional resources Homework: There will be take home work to be complete each week, about 20 minutes per day depending on student. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration.</p>	<p>10th-12th Exploring Creating with Biology Teacher: Mrs. Jaime Description: Discover the wonder of God's living world in this hands-on biology course! Students begin with a "macro" view, studying kingdoms, phyla, and the steps scientists use to identify and classify plants and animals. The course then zooms into the "micro" world of single-celled organisms, exploring reproduction, genetics, and ecosystems. Weekly at-home activities prepare students for class, where they'll engage in labs, experiments, and hands-on investigations that bring science to life. Active participation at home and in class is essential and required for fully experiencing and mastering the material. Curriculum: Sonlight and Various Materials Homework: Weekly homework is required and participation in class. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>

CLASS PERIOD	TIME	THURSDAY	
		CLASSROOM 1	CLASSROOM 2
Period 1	8:45 - 9:30	<p><u>2nd Grade Writers Workshop:</u> Teacher: Mrs. Sandy Description: This class is a beginning writing class for 2nd graders working on basic writing skills. We will cover sentence writing and several different genres of writing including narrative, informational writing and poetry. All lessons will be introduced and practiced using the Writing process. Cursive writing, journal writing and editing will also be included. Curriculum: BJU English 2 Homework: There will be take home work to be complete each week. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration.</p>	<p><u>Beginning Math for Kindergarten</u> Teacher: Mrs. Megan Description: This class will focus on developing numeracy, understanding place value, addition and subtraction. Understanding and writing the symbols +, – and =, telling and writing time by hours, counting by 2s, 3's, 5s, 10s, and 100s Reading, writing & interpreting word problems. Curriculum: Math U See Primer and BJU Kindergarten Math Homework: There will be take home work to be complete each week, about 10 minutes per day depending on student. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration.</p>
Period 2	9:40 - 10:25	<p><u>1st Grade Writers Workshop:</u> Teacher: Mrs. Sandy Description: This class is a beginning writing class for 1st graders working on basic writing skills. We will cover sentence writing and several different genres of writing including personal narrative, non-fiction writing and poetry. All lessons will be introduced and practiced using the Writing process. Handwriting, journal writing and editing will also be included. Curriculum: BJU English 1 Homework: There will be take home work to be complete each week. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration.</p>	<p><u>Kindergarten STEM & Science Explorers:</u> Teacher: Mrs. Heather Description: This hands-on course introduces students to the exciting world of science and how scientists study God's creation. Students will explore living things, plants, habitats, the earth and its features, the sun, moon, and stars, forces and motion, natural resources, and how the body works. They will develop important science process and inquiry skills through experiments, projects, and activities, learning to observe, ask questions, and communicate their discoveries. Along the way, students will learn to defend the truth that God created all things and sustains their existence, seeing His design in the patterns and systems of the natural world. Curriculum: BJU and Various STEM projects. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee, paid at registration.</p>
Period 3	10:35 - 11:20	<p><u>3rd Grade Writers Workshop:</u> Teacher: Mrs. Sandy Description: This class is a beginning writing class for 3rd graders working on basic writing skills. We will cover sentence writing and several different genres of writing including personal narrative, opinion writing and poetry. All lessons will be introduced and practiced using the Writing process. Handwriting, journal writing and editing will also be included. Curriculum: BJU English 3 Homework: There will be take home work to be complete each week. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration.</p>	<p><u>1st Grade STEM & Science Explorers:</u> Teacher: Mrs. Heather Description: In this class, students will explore the wonders of God's creation through hands-on activities and engaging lessons. They will learn about the basic concepts of life science, physical science, and earth science, discovering the beauty and order in nature that reflects God's design. Topics include understanding the properties of materials, identifying plants and animals, exploring weather patterns, and learning about simple machines—all while recognizing the intricacy and purpose behind everything in creation. The class encourages curiosity, observation, and experimentation, fostering a sense of awe and reverence for the world God has made. Biblical principles, such as stewardship of the earth and God's role as the Creator, will be woven throughout, helping students develop a deeper appreciation for science as a way to understand His creation. The goal is to inspire a love for science while growing in faith and a sense of wonder about God's world. Curriculum: BJU and Various STEM projects. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee, paid at registration.</p>
Period 4	11:30 - 12:15	<p><u>1st Grade Math</u> Teacher: Mrs. Jessie Description: Addition and subtraction, skip counting, geometric shapes, telling time, ten frames expanded and they will be introduced to the manipulative block system (hands on, tangible experience to learn math). Curriculum: Math U See Alpha and BJU Math grade 1 Homework: There will be take home work to be complete each week, about 10 minutes per day depending on student. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration.</p>	<p><u>6th/7th/8th Stage & Story—Theater for HIS Glory:</u> Teacher: Mrs. Jaime Description: This engaging, hands-on theater class invites students to explore creativity, collaboration, and confident expression while using their gifts to reflect the Creator. Throughout the year, students will develop foundational acting skills through voice, movement, character development, and improvisation. As they participate in skits, group scenes, and guided practice, students will also intentionally grow in public speaking, clear communication, and teamwork—learning how to express themselves with confidence while supporting and encouraging one another. In addition to performance skills, students will explore the behind-the-scenes elements that bring a production to life, including basic drama structure, stage presence, and set design. The collaborative nature of theater provides a meaningful opportunity for students to practice responsibility, cooperation, and servant-hearted leadership as they work toward a shared goal.</p> <p>Our desire is not only to build strong performers, but to cultivate confident communicators who can use storytelling and their voices in ways that honor Christ and encourage others.</p> <p>The year will culminate in a live stage production of NARNIA for friends and family to attend, celebrating the growth and work accomplished throughout the course. Additional rehearsal time outside of class may be required as performance approaches. Students are responsible for providing costumes. **CLASS is open to ANY AGE/GRADE through High School for the select few who are interested. Production: End of year production of Narnia. Students are responsible for providing costumes Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$85 one time yearly fee, paid at registration.</p>

CLASS PERIOD	TIME	THURSDAY	
		CLASSROOM 1	CLASSROOM 2
Period 5	12:25 - 1:10	<p><u>6th-7th Grade The Reluctant Writer</u> Teacher: Mrs. Kerry Description: Many students would rather go to the dentist than write! If this is your sixth-grade student, this class is for you. Students will be eased into good writing through a variety of creative writing assignments. Skills of good writing will be added as students become more confident in their ability. The desire is to move into formal essays with ease. Good writers write so completing weekly assignments is the only way to progress. Class is geared to lower middle school students who have not taken the Art of Writing class Curriculum: A culmination of books/resources Homework: Weekly homework time should take under thirty minutes four days per week. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>	<p><u>4th-5th Grade Stage & Story— Theater for HIS Glory:</u> Teacher: Mrs. Jaime Description: This engaging, hands-on theater class invites students to explore creativity, collaboration, and confident expression while using their gifts to reflect the Creator. Throughout the year, students will develop foundational acting skills through voice, movement, character development, and improvisation. As they participate in skits, group scenes, and guided practice, students will also intentionally grow in public speaking, clear communication, and teamwork—learning how to express themselves with confidence while supporting and encouraging one another. In addition to performance skills, students will explore the behind-the-scenes elements that bring a production to life, including basic drama structure, stage presence, and set design. The collaborative nature of theater provides a meaningful opportunity for students to practice responsibility, cooperation, and servant-hearted leadership as they work toward a shared goal.</p> <p>Our desire is not only to build strong performers, but to cultivate confident communicators who can use storytelling and their voices in ways that honor Christ and encourage others.</p> <p>The year will culminate in a live stage production of NARNIA for friends and family to attend, celebrating the growth and work accomplished throughout the course. Students are responsible for providing costumes Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$85 one time yearly fee, paid at registration.</p>
		<p><u>8th-9th Grade Mastering Words: The Art of Academic Writing</u> Teacher: Mrs. Kerry Description: This class is for those who desire learning to compose an effective essay in the persuasive, narrative, and expository genre. We will use a combination of "best writing practices" as we analyze each component of the essay writing process--solid thesis statements, attention-grabbing hooks, effective premise development, and summaries leaving the audience wanting more. Curriculum: The Elegant Essayist (IEW), Academic Writing (IEW), The Art of Rhetoric (IEW) Homework: Homework completion and good attendance is imperative for this class in order to practice and internalize each skill introduced each week. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>	<p><u>4th & 5th Grade Beginning Choir</u> Teacher: Mrs. Kellie Description: Elementary Choir is a class that will focus on learning the basics of reading music and singing, and how to combine these two skills with other students to create a cohesive choir sound. Specifics of instruction in reading music will include note placement and rhythm elements, along with deciphering symbols and knowing what they mean. Students will learn how to sing melodies together, and learning the basics of successful singing including intonation, breath support, rhythm & posture, and blending voices. We will focus on singing one part together well, and throughout the school year we will work on a variety of other necessary skills. There will be an end of year production. Homework: Students will be assigned a new vocal skill to work on at home, and when we start working on songs, they will have a part to practice at home each day. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>
Period 7	2:15 - 3:00	<p><u>8th-9th Grade Smart & Healthy Living:</u> Teacher: Mrs. Jessi Description: This course equips students with practical tools for maintaining a healthy lifestyle and making thoughtful decisions as they transition into their teenage years. Topics include physical and emotional wellness, nutrition, exercise, healthy friendships, conflict resolution, and stress management. Students will also develop essential life skills such as goal setting, time management, job readiness, and wise financial decision-making. Homework: Will vary week to week based on various projects. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$60 one time yearly fee for materials, paid at registration.</p>	<p><u>6th/7th/8th Vocal Music Theory / Beginning Choir</u> Teacher: Mrs. Kellie Description: Vocal Music Theory is a class that will focus on developing knowledge and practical experience in the principles of music, with an emphasis on vocal understanding. Students will learn how to read music, the components of how to sing a melody or harmony, the basics of successful singing including intonation, breath support, rhythm & posture, and how to blend voices together to form a cohesive choir. Students will learn their vocal range (soprano, alto, tenor, baritone, bass) and throughout the school year we will work on a variety of skills necessary for singing with skill. There will be an end of year production. Homework: Students will be assigned a new vocal skill to work on at home, and when we start working on songs, they will have a part to practice at home each day. Cost: \$216/year broken in 9 monthly payments of \$24 Supply Fee: \$80 one time yearly fee for materials, paid at registration.</p>

30 Minute Sessions Piano Lessons: **ages 7 and older**
(students younger than 7, must receive permission from piano instructor prior to registration)

Teacher: Mrs. Julie

Times: Piano lessons are offered in 30 minute increment. Sessions will be scheduled with the piano instructor.

Description: Individual piano instruction for beginners and transfer students. Our piano instructor will contact you to set up a time once you register.

Curriculum: Beginning students will be using one of the three levels from Faber Piano Adventures. Other supplemental materials may be added to facilitate each students individual needs.

Transfer students will be evaluated and assigned curriculum as appropriate.

Homework: 5 good days of practice each week. Intensity and duration depending on student age and level.

Cost: \$110 per month. Lessons are 30 minutes.

Requirements: Each family will need to provide a piano (or quality 88 key digital keyboard) for daily practice.

Registration Fee: \$30 one time fee paid upon registration. Additional books required to be purchased. Parents will purchase these student materials on their own after the Piano Instructor communicates specific materials each student will need. Your Piano Instructor will also guide you where to purchase these student materials. Other supplemental material may be suggested as students progresses.
