

VISITATION DEACON

MISSION/PURPOSE

To provide guidance and support to Deacons and/or Church Staff when making visits to sub-flock members or other members of the Church.

FUNCTION

The function is to provide consultation, advice, and other input as required to facilitate successful and helpful visits to those in hospital, shut-ins, or other members in need.

PROCEDURES/PROCESS

Since the sophistication and scope of the functions of the North Shore Church administration have expanded in the area of visitation, the weight and details of visitation are best handled through their processes. The Visitation Deacon functions in an advisory capacity - providing input, coordination, and voluntary Deacon resources if required.
