

March 2022

Dear Friend,

Praise the Lord that the world seems to be opening back up for travel! I have had the opportunity to make a few trips and travel seems to be getting easier, other than the increased cost.

I spent a week in the state of Oaxaca at the southern tip of Mexico. I joined First Baptist Church of Junction City on a Spring Break outreach. We were able to offer a full Vacation Bible School to the children in the morning. In the afternoon we taught English at a public school followed by a community basketball clinic in the evening. FBC Junction City has worked with the same church and school for many years and has built a solid reputation in the community.

The following week I spent with the Missions Door Campus Ambassador Team which assembled in Oregon for a week of vision and renewal. It was wonderful spending time with the diverse team from coast to coast and Mexico. The team is represented by missionaries in their 20's to their 70's. There was a lot of encouraging words and sharing of advice from the older generation to the younger.

Our Strategic and Leadership Team has been working with Keenly to boost our social media presence and update our website. Being of an older generation I didn't realize the importance of social media and a well-designed website. Missions Door has had a website for years, but it has become outdated and needed a facelift. The new site will be up and running in a month. I would encourage you to take a look and see current stories and projects that Missions Door is working on. [Missionsdoor.org](https://missionsdoor.org)

My travel schedule is getting back to normal with trips being planned for Ethiopia, Kenya, Kyrgyzstan, Cambodia, and Bolivia. This of course is if the downward trend of covid continues. Thank you for praying for Nancy's broken arm recovery. Praise the Lord that her arm is healed, however, she is still working on getting full mobility back.

In His Grace, *Aaron and Nancy*
