

Amazing Story, Because YOU Gave

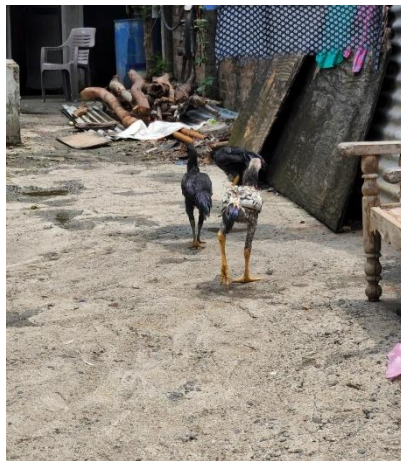

August 5, 2026

One of the more amazing aspects of working to honor God is seeing what He can do with what we do.

This story tells EXACTLY why we give chickens and goats with a year's follow up for vaccinations. Dr. Suresh has written an amazing story.

"Yesterday was my vaccination visit at Mrs. Rajesh we had given this family the last chicken project. When I reached there, I got to know that all the chicken had gone here and there.

After a long time of hard work, we were able to collect them all for vaccination.

After giving them the project, two to three hens hatched the chickens and now another batch is on the way. Rajesh is very happy that she has just delivered a baby boy and that she is able to eat eggs every day for her proper nutrition.

After I completed the vaccination and was about to go back. Rajesh invited me inside her home and the reason was she wanted me to pray for her baby. It was really surprising for me that she asked me to pray for her child. She requested

me to "pray for Jesus' blessings for my son" I just held the child and prayed for him and his future.

But while returning on my bike my heart glorified the Lord because I never talked about Jesus directly to this family but she still recognized that I am a Christ follower and our act of giving chickens to this family made them see Jesus' love in their heart. And that really means a lot to me and I thank God for this.

This incident really makes me happy and makes me think that our small act of giving something to these needy people can be a reason to bring glory to God. I am just sharing this with you so that you may also pray for this family and give glory to God.

Hope the coming batch will help them more financially and in getting good nutritious food.

Thanks, Suresh “

Our response to Dr. Suresh:

Someone was led to give money,
You delivered the chickens,
She had a baby boy,
She recognized Jesus in this, and
She asked you to pray for her son, and
You prayed for God's Blessing on the baby boy
AMEN

Thank you again for your prayers and continued donations
