

Choosing the Path

Jesus asked clever questions. Jesus also told stories that showed that people can change their ways. We have a choice for our path. You have a choice in your path today too! Begin at the square that says Start. Follow the path of right side up question marks to the Finish box. From any box you can go straight up or down, sideways, or diagonally. Throughout this grid, picking up hearts as you go, and ending at the finish line. At any point, you can go straight up, down, and sideways, and diagonally. How many squares do you have to go through to pick up all of the hearts? What's the shortest path you can find?
