

# ONRAMP #1: PARTICIPATE

STEP #1

## Catch the Vision

You may find it helpful to begin by familiarizing yourself with the overall vision and ultimate goal of these groups.

*Suggested Action(s): Peruse the DNA Groups webpage online at [mercyhillchurch.org/dna-groups](http://mercyhillchurch.org/dna-groups).*

STEP #2

## Find Your Folks

After getting a better sense of what these groups are all about, your next step is to prayerfully find your folks.

*Suggested Action(s): Use the church website; invite people personally; ask church leaders for assistance.*

STEP #3

## Follow Jesus Together!

Now that you have a smaller group of committed people who are willing and wanting to meet on a consistent basis, you are ready to begin Discovering, Nurturing, and Applying Christ together until he is all in all. Enjoy the adventure!

# ONRAMP #2: FACILITATE

*Note: This second onramp includes the same three simple steps involved in the first with the addition of a "half step" in between.*

STEP #1.5

## Get Trained

If you are interested in facilitating your own DNA Group, let us know! We'll direct you to our online crash course, meet to help you craft your vision, provide you with additional resources, and send you on your way!

*Suggested Action(s): Sign up online and go thru the training.*

STEP #2.5

## Get Started

After you have found your folks, it's time to get started!  
*Suggested Action(s): In the DNA Group Facilitator Manual, look over the Starter Checklist to confirm you have thought through much of the details; consider if/how you will make use of the two optional Starter Studies.*

**Note: Whether you want to participate or facilitate, we would encourage you to initiate!**
