BETTERMAN

What is this BetterMan Series All About?

Giving Men what they need most

Men today desperately need two things: clarity and community.

Clarity around what it means to be a man in the 21st Century, and a community of like-hearted men to journey to with. BetterMan offers both. By participating in a BetterMan Study you along with other men will receive the guidance needed to live the life you crave – a life centered on the life-giving manhood of Jesus.

Most men internalize all of their emotions, fears, trauma, for the sake of trying to show strength. They put up a façade and fail to deal with the baggage in their life that keeps piling up and they do not realize the unintended consequences this has not only on others, but themselves and their own personal fulfillment and the ability to live an abundant life. This may be on how they were raised and by whom, the role their father played or didn't play in their own life.
