

CEDARA NEWSLETTER

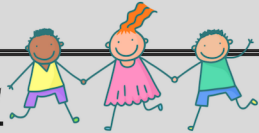

November / December 2022

Prayer Requests

1. For the Lord to raise up men in the community who will be willing to serve Him.
2. For the teens that are writing exams.
3. For the land allocation process.
4. For good relationships within the Community.

Childrens Ministry

The children's ministry is continuing to grow, our challenge at the moment is with the summer rains!! Although they are a blessing, it does play havoc with our outside meetings and so we pray not for the rains to stop but for our land application to go through so that we can have our prefab on site.

Vegetable Garden Mentoring

We are very excited that we are getting our vegetable garden mentoring project up and running. Jane and Syvion will be spearheading this project where we will be using our vegetable garden as a training garden and teaching people how to use the resources that they have available to them. The 2 pictures are of gardens that we have identified to kick off the project. The one garden belongs to Khethiwe, a single mom and the other to 2 brothers who are in Grade 10 & 12 and live on their own. Initially we will teach them how to prepare their gardens and provide them with the seedlings and we will walk along side them as they learn.

Church services

We have been facing many challenges in getting access to the community Hall for our church services and then last Sunday we were able to gain access and had a wonderful guest speaker who shared the gospel with 18 attendees of which 5 were adults. It was so encouraging and we praise the Lord for this.

Christmas

Always a busy time of year and this year we have decided that we would do food parcels for the Gogo's in Cedara which would also include a small treat. We will have the Queen Family visiting us from the 12th - 19th December and they will be involved in a Children's Club on the 14th, a Teenagers Day Camp on the 15th and the Gogo's Christmas party on the 18th. This is going to be a fun filled and blessed time for our Cedara ministry.
