

On Mission Together

“Two are better than one, because they have a good return for their labor.” — Ecclesiastes 4

As a family of believers, we want to ensure that everyone has the opportunity to serve. There are many areas where each of us can contribute, and our desire is to clearly communicate the needs of The Forge so we can remain unified in our mission.

Below is a list of projects we hope to complete by the end of June. Please contact **Makenna** to let her know which task(s) you are willing to assist with. This list will be updated as items are completed.

Our goal is to steward our church facilities with excellence—honoring what God has provided and creating a space that allows us to minister effectively to all whom the Lord brings our way.

Thank you for serving with us.

Current Facility Needs

1. **Shed #2** Clear out and reorganize the contents (primarily NextGen items).
2. **FLC Attic** Assemble a team of men and women to clear and reorganize the attic. Some items may pose fire hazards and need to be removed.
3. **Main Lobby Floor Tiles** Replace or regrout three floor tiles in the lobby. All necessary materials are already on hand.
4. **Wood Pile Burn** Once statewide burn restrictions are lifted, burn the wood pile located at the rear of the property.
5. **Debris Removal** Remove a truckload of debris from between the two storage sheds and transport it to the landfill.
6. **Auditorium Speakers** Gather several men to help move the large auditorium speakers forward a few feet. This adjustment will help reduce weekly microphone feedback issues.
7. **Light Bar Installation** Install a new light bar between the relocated speakers. This will allow for new saturation lighting to eliminate shadowed areas on the platform.
