Truth For The World

“Can we use your material?”

Occasionally we get a question from someone about whether or not we will give permission for them to use our material. For example, a recent request we received was to offer our permission to copy some of our tracts and send the printed material overseas. Does *Truth For The World* offer permission for people to use our materials?

All Truth For The World content is free for use under the CC BY-NC-ND license. To put it simply, you can use and duplicate any of our content provided that you 1) attribute and give credit where it came from (i.e.-*Truth For The World*), 2) do not charge anyone money for receiving the material, and 3) do not make any derivatives, or in other words, do not alter the material to create your own version.

You can use TFTW material for your own study and evangelism provided you always:

- 1. Attribute where the material comes from***
- 2. Do not charge for it***
- 3. Do not alter it***

If you just download any material, such as a tract, from our website and print it as it is, you will automatically be fulfilling the 1st and 3rd condition because you did not alter it and it will have the TFTW name on it. Then, you can mail it out for free, thus fulfilling the 2nd condition.

Part of the mission of *Truth For The World* is to assist congregations and individuals in their evangelistic efforts.

Please feel free to download, print, email, or mail materials from our website following the conditions outlined here.

Thank you for your efforts to teach others the Bible.
