OUR NEW APP IS HERE!

We’re excited to share that our church has officially moved to a brand new app experience through Subsplash! This is a big step forward in helping us stay connected as a church family all week long. Instead of using multiple platforms, everything is now in one simple, easy-to-use place.

Our new app is a digital home for Celebration Church. You can watch or listen to messages, stay up to date on events, receive important updates, give securely, and connect with others—all right from your phone.

Need help getting started? Tap cards are now available on the backs of sanctuary chairs, as well as at the Welcome Desk and Registration Tables in the Hub, making it easy to download the app right away.

Please note: all giving will now take place through the new app. If you currently have recurring or automatic giving set up through Planning Center (Church Center app), please switch that over to the new system to keep everything running smoothly.

We truly believe this change will help us grow closer as a church and create more opportunities to stay connected, encouraged, and involved. Be sure to download the new app, explore it, and make it part of your weekly rhythm—we can’t wait for you to experience it!
