

The End of the

Dispensation of Grace

A Pauline structural framework for the interrupted prophetic calendar.

The Geopolitical Trap

The Sensational Approach: Reading current events to track prophetic fulfillment.

Commentators expected all events to be fulfilled within a 40-year generation of Israel's 1948 regathering.

The Structural Reality: Old Testament prophecy cannot be fulfilled during the Dispensation of Grace

If an OT prophecy is fulfilled, the Dispensation of Grace was never a secret.

Divergent Biblical Programs

	The Prophetic Program	The Mystery
Origins	Genesis through early Acts. Quoting Peter in Acts 2: <i>"This is that which was spoken by the prophet Joel"</i> .	Revealed exclusively to Paul (Ephesians 3:2).
Visibility	Known and prophesied since the world began.	Hid in God. Not a single clue or subtle hint exists in Genesis through Malachi or the Gospels.
Subject	Israel , earthly covenants, and the 70th Week.	The Body of Christ, heavenly places, and faith expressed without works

Because the Mystery was entirely unprophesied, the prophetic calendar must be entirely suspended while the Mystery is active.

The Interrupted Timeline

The Purpose of the Pause

The Alternative

If the prophetic calendar had simply marched onward, the 70th Week would have occurred immediately, culminating in a judgment where blood flows for 200 miles (Revelation).

The Reality

God initiated a magnanimous, gracious amnesty period.

Core Takeaway: The Dispensation of Grace is not designed to fulfill prophecy. It is an offer of salvation to humanity before the prophetic calendar of wrath resumes.

The Futility of Identifying the Man of Sin

Trying to identify the Antichrist today is chronologically impossible.
The 'Wicked' is not revealed until after the Body of Christ is taken out of the way.

The Restrainer Effect

2 Thessalonians 2:7 indicates that which hinders the revelation of the Man of Sin is the Dispensation of Grace itself. Once removed horizontally, the prophetic calendar moves forward

The Only Pauline Foreshadowing

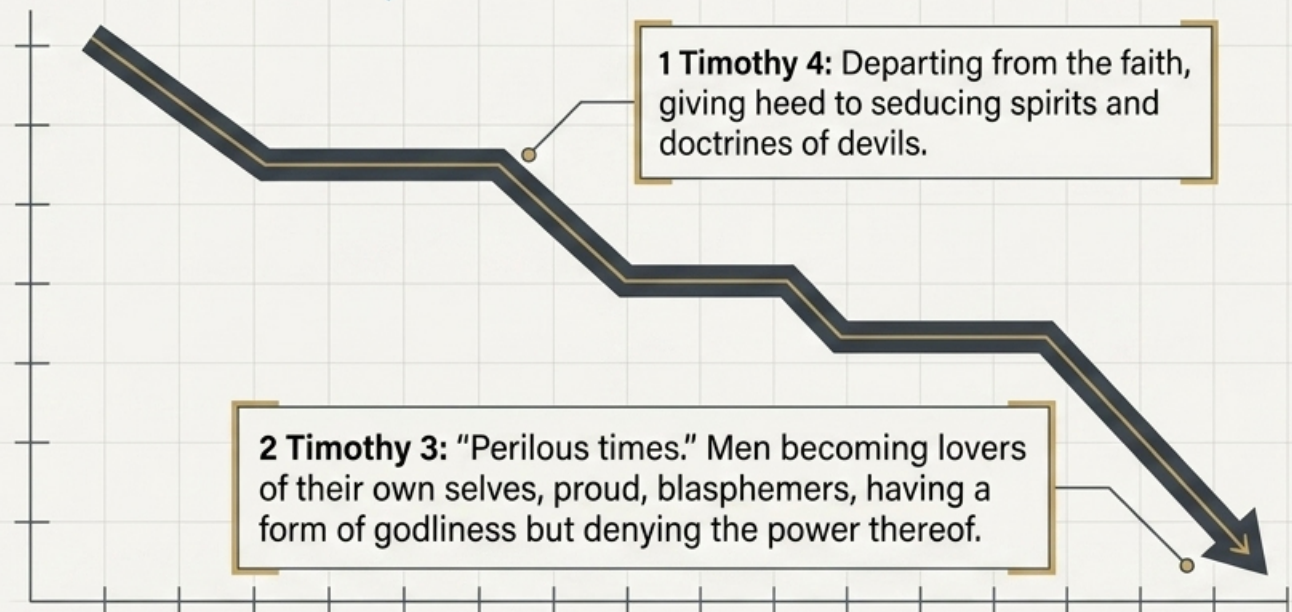

Not a political event.

Not a war.

Not a circumstance
in Israel.

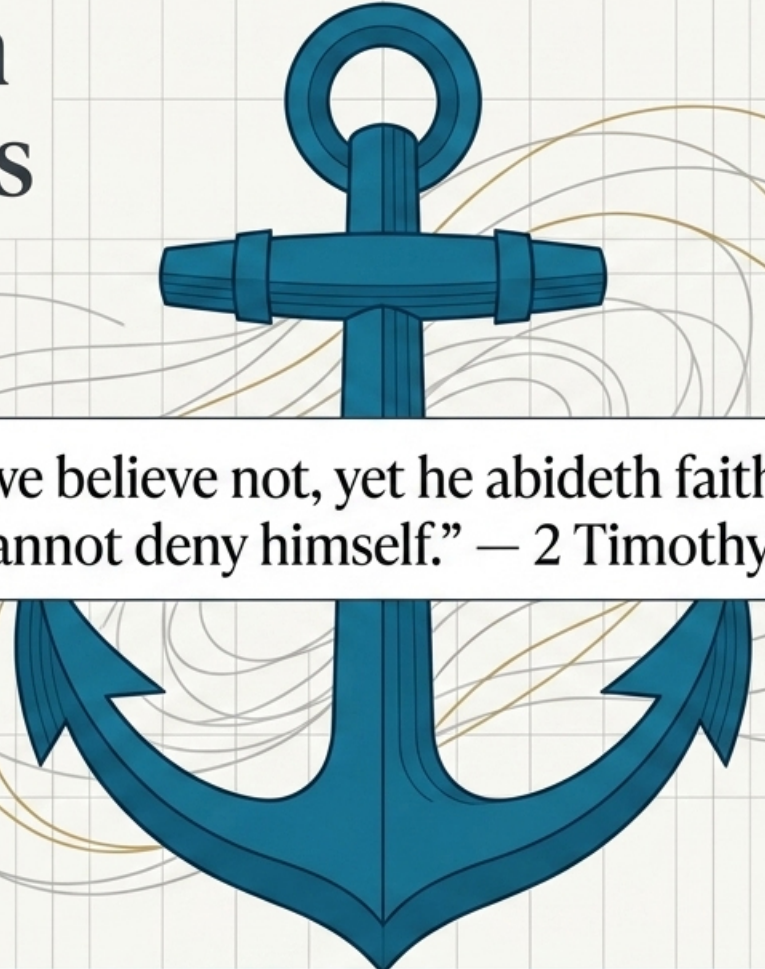

A spiritual plummet.

The Anchor in Perilous Times

The World's Posture:
Plunging into apostasy
and seducing spirits.

**“If we believe not, yet he abideth faithful:
he cannot deny himself.” — 2 Timothy 2:13**

The Believer's State:
Sealed unto the day
of redemption.

Even if a saved person literally quits believing or renounces the Bible,
God cannot deny His own Body. A believer cannot lose their salvation.

The Mechanics of Access (Romans 11)

Phase 1 (Time Past)

Israel held a superior position (Gentiles were "without hope", strangers to the covenants).

Phase 2 (The Trigger)

Because of unbelief, they were broken off. Israel falls and diminishes.

Phase 3 (The Dispensation of Grace)

Salvation is come unto the Gentiles. Today, there is no difference between Jew and Greek; anyone can be saved in an instant.

Warning Label

Paul specifically addresses this dynamic to Gentiles, warning that they must stand by faith, and God will not spare them if they fall into the same unbelief.

The Fullness of the Gentiles

The Quota Myth

God has a heavenly quota, and the dispensation ends when the last required Gentile gets saved.

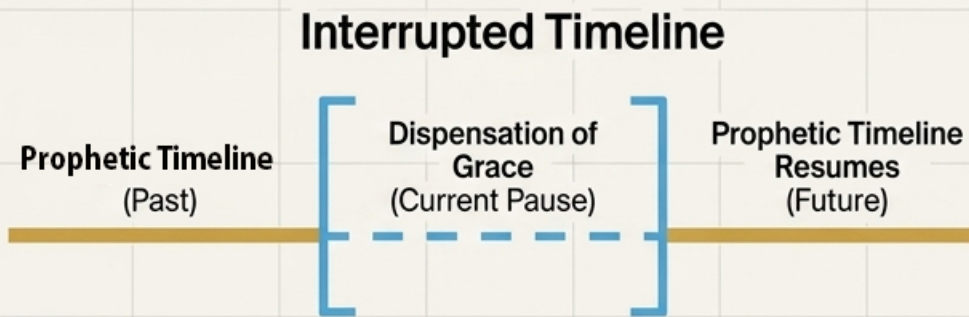

Collective Gentile Apostasy

The dispensation ends because Gentiles, as a collective group, reject the gospel, saying, "We don't want it."

God does not get tired of saving people. When Gentiles collectively reject the gospel God cuts off Gentile access, just as He did to Israel.

Synthesis: The Urgency of Grace

- The Prophetic Calendar remains paused.
- The Antichrist is restrained.
- The only sign is spiritual decline.

Rejoice in the Amnesty.

The end of this dispensation will be marked by perilous times and widespread apostasy. Therefore, let us be busy preaching the Gospel of Grace to get as many saved as possible before Gentile access is cut off.
