

Safety Procedures

We are committed to providing a safe environment for all children. Here's how:

Prayer

We pray for the safety of all children that come through our doors each week.

Background Checks

Our staff and volunteers undergo a background check and training for their designated areas.

Secure Premises

A member of our Fellowship Security Team is always stationed at the Fellowship Kids entry door. No one may enter the Fellowship Kids area without a parent sticker or volunteer name badge. The doors are also closed and locked beginning 15 minutes after each service starts. The security team member remains at the door throughout the entirety of the service and allows parents back as needed (with parent sticker).

Secure Check-In and Check-Out

We use a secure check-in system that prints stickers for children that contain their name, allergy information and a security code. Parents will also receive a sticker that reflects the same security code as their children. All children checked-in must wear their nametags through the duration of the service. Parents must show their tag to each child's teacher at pick-up to ensure a matching security code. The person picking up a child from Fellowship Kids must be 16 years or older and have the correct sticker.

First time guests can go to the "Check-In Here" table in the Fellowship Kids Lobby to get registered into our system, get nametags and parent stickers. We'll also give you a tour and answer any questions you may have before showing you to your children's classrooms for drop-off.

Contact During Service

If for some reason your child needs you during the service, we'll text you at the number provided during check-in/registration.

Fire and Tornado

Safety protocols are posted in each classroom for teachers to follow in case of emergency. Fellowship Kids staff are always on-site to ensure prompt and organized action, if needed.

Incident Reports

Anytime first-aid is administered, an incident report will be filled out and provided to the parent so they are aware of what took place and how it was handled. If the injury is more serious, a parent will be called out of service.

Discipline

Fellowship Kids has a discipline procedure in place to ensure all children feel safe to learn about Jesus. Aggressive or bullying behavior is not tolerated and will be addressed immediately and intentionally. Parents will be notified if their child is involved in any type of situation where discipline action was taken.

Questions? We'd love to chat with you. Email us at fellowshipkids@fbclife.org.
