"Maker-Space"

Create your own screen-free play area or "maker-space" where your kids can invent and create. To get your child started, collect the following 5 types of common household items:

- 1) Cardboard – cereal boxes, paper towel rolls, egg cartons
- 2) Textiles – fabric scraps, felt, yarn, string, burlap
- 3) Art and Craft supplies – paint, scissors, buttons, paper, colored tape, paper plates
- 4) Building tools – Legos, wood scraps, duct tape
- 5) Tech tools – broken technology items such as old keyboards, old cell phone case, etc.

Now step back and let your kids start creating.

Classroom News

Welcome back to school everyone! Many things will begin to grow inside and outside of the classroom. We have watched our classroom Pumpkin Jack as he has changed throughout the year. It is now time to take off the lid, add some water, and predict if anything might happen. We also will observe any changes to the sprouted potatoes we planted in a big pot inside our classroom. Plants are not the only living things changing in our classroom... a jar of caterpillars will be arriving in the middle of April. Just like the butterfly, Jesus brings new life!
