## Integrated Pest Management Program Notice to Parents

Dear Parent or Guardian,

The Trinity Lutheran Early Childhood Development Center utilizes an Integrated Pest Management (IPM) approach to control pests. IPM is a pest management system that utilizes all suitable techniques in a total pest management system with the intent of preventing pests from reaching unacceptable levels or to reduce an existing population to an acceptable level. Pest management techniques emphasize pest exclusion and biological controls. However, as with most pest control programs, chemical controls may also be utilized.

Parents have the right to be informed prior to any application of an insecticide, fungicide or herbicide made to the school grounds or inside buildings during this program year. Parents will receive advance notification of pesticide application **R 400.8380**.

**Parents will be notified every September and by the following two methods:**

- 1) A notice will be sent on Brightwheel no less than **three days before the application**
- 2) Written notification will also be posted at the center's front entrance of the office and classroom.

**If a pesticide exposure incident occurs or for additional information call the  
Michigan TOXIC HOTLINE:  
1-800 MI-TOXIC (1-800-648-6942)**
