

### **Corinne Hill - Class of 2001**

“I graduated from Trinity in 2001 and after all this time, I still look fondly back on my years there. The education I received there empowered me to achieve academic success throughout high school and college, while playing a vital role in forming the moral compass that has guided my life. With smaller class sizes and high quality instruction, students will get the attention they need to ensure they receive a well rounded education along with kindness and compassion from their teachers. Based on my experiences, I can confidently recommend Trinity Lutheran School to anyone considering it as an option for their child.

Memorizing Bible verses, spelling, and all the vocabulary lessons helped me with the eight years of Spanish I took in high school and college, and now I am learning Portuguese. Memorization skills are so important!

When I was visiting my family over the summer, I came with my mom to pick up my nephew, Isaiah, from preschool. It brought back so many happy memories being at Trinity again.”
