

Jake Hindenach Class of 2020 (currently a student at PPHS)

“Going to Trinity really helped with my growth in every aspect of high school and my life. It was very nice to have a strong connection with teachers and students in every room. I felt as if I could go to any of the teachers about anything I had going on whether school related or not.

It also helped me significantly with my spiritual development. Starting to learn God’s Word at a young age set a foundation in my life and something to build on as I continue to grow. Talking to teachers and students about your faith in Christ is one of the biggest things I miss about my years at Trinity. Having a class dedicated to learning God’s Word and understanding every aspect of it gave me knowledge I use everyday.

The athletics at Trinity helped develop me to become the player I am today. It wasn’t just my skill for the game that was improving as I played there, my sportsmanship, love for others, and appreciation of the game came to me throughout all the years I played sports at Trinity.

Looking back on it. Trinity was a great place to spend my preschool, elementary and middle school years, because it formed a foundation of Christ in my life.”
