

Luke Lambert- Class of 2015 (Currently attending KVCC).

“ I have learned countless things from my educational experience at Trinity, here are some examples. For starters, Trinity prepared me to properly respect adults and classmates. Much more than public school could ever do, because Trinity was such a tight community where everyone loved and respected each other. There was no room for kids to bully or act out because of the small class sizes, which I think instilled a lot of maturity in me and my classmates at a very young age. We knew how to act properly while kids from other schools were acting like hooligans. Trinity did a great job of teaching me to behave in a professional manner.

Another thing that was fantastic about Trinity was the one on one experiences you got in the classroom from teachers. Most teachers in public schools have to deal with 20+ students at a time, which makes it hard for them to have a genuine relationship with their students. At Trinity I viewed all my teachers as part of my family, and all of them were always willing to spend extra time outside class to explain or tutor in order that I would have success in school. Teachers also helped ensure my spiritual well being and personal relationship with God.”
