Samantha is a Licensed Professional Counselor and owner of Thorn & Rose Counseling, a therapy practice focused on helping teens and young adults find freedom from anxiety, trauma, and attachment concerns. Samantha is a nurturing therapist who uses both science-backed and biblically based perspectives to help clients find healing from trauma and anxiety. We are story-telling creatures, and when we are struggling with mental illness or change, the stories we tell ourselves can be very negative.

Depression, anxiety, perfectionism, grief, and stress are just a few "thorns" that clients bring into therapy. Samantha's goal is to help you find hope and freedom in life again, so you can start to see the "roses." Like the apostle Paul, we can use our thorns to bring people closer to Christ, but only if we make sense of our story first.

Areas of Specialization: Anxiety, perfectionism, career counseling, teenagers, young adults, and dating/relationships

Education: Southern Methodist University

Even when dealing with painful issues, clients often say they feel better when leaving a session than they did when they came in.
