An ecosystem of grace

October 25, Romans 12
Pastor Brad Henderson

DISCIPLESHIP COMMUNITIES

Connect With One Another

- **Icebreaker:**
  if you came with a disclaimer, what would it be?
- **Sermon Question:**
  How were you encouraged by this Sunday's sermon?

Look at the Scriptures

- **Romans 12:3–21** describes the marks of an ecosystem of grace. These include humility (v. 3), honor (v. 10), mutual belonging (v. 5), among others. As you read this passage together, which of these marks of grace resonates with you the most, and why?

Apply to our Lives

- Creating an ecosystem of grace is part of our vision for the church. How have you experienced this at Trinity Bible Church?
- Even though our vision is to create an ecosystem of grace, we can sometimes create microclimates that reflect the opposite (harshness, grudge-holding, stinginess, etc.). How can you recognize when you have shifted from receiving grace to measuring it out to others?
- Think about your interactions with others this week. What is one specific thing you can do to help someone experience the grace we want to cultivate as a church?

Pray for One Another

- Pray for one another's needs and for all of us to cultivate an ecosystem of grace at Trinity Bible Church and in our relationships with one another.
