

Weekly Sermon Based Discussion Questions

Oct 4, 2026

DIGGING DEEPER:

1. In what ways have experienced serving as God's gift to you, and not an obligation that God placed on you?

2. How have you experienced serving confronting some of the sinful tendencies in your own life?

What are some of the ways you find yourself living as if you are the primary focus of your life?

3. (1 Peter 4:10) Do you believe there has been a lack of awareness in your life about your "service" abilities being gifts that God has given you to strengthen the church?

What are your primary gifts and how are you stewarding them in a way that God is pleased?

4. How could we better be held accountable to and call the church to "look on the interest of others?"

5. Take a few minutes to talk through Philippians 2:4-8.

What does it mean to have the mind of Christ, and who in our life intentionally disciples us to have that mind?

6. How is American consumer "Christianity" totally unlike biblical Christianity? Are all of us affected by the consumer culture in some way?

7. We know the majority of people who attend a weekly church gathering never serve. So why isn't there more conviction motivated response to the question, "are you willing to step into eternity trusting in a salvation that looks nothing like Jesus?"
