June 2026 Ministry Update – Nicaragua

We are in a season of Building! Read how you can be a part of this exciting time!

Construction in Los Rincones

God continues to open doors and move the work forward here in Nicaragua. In Los Rincones, the construction of the new church building is moving fast. The walls are going up, and it is exciting to see a visible place being prepared where this young church can continue reaching its community with the gospel.

Construction in Villa Sandino

In Villa Sandino, the church is already using their new building, and we are getting close to finishing the pastor's apartment. The kitchen countertops are in, the plumbing is finished, and the next steps are ceramic tile and the walls that will divide the rooms. There is still a lot of work to do downstairs, including pouring the concrete floors and installing steel work for the doors and windows.

Moving Back Home - Epicentro Estelí

Epicentro Estelí also has some exciting news. God has worked it out for us to move back into our original building, the place where this ministry first began. We hope to be moved over there by the middle of August. There is quite a bit of work that needs to be done on the building and the pastor's apartment, and we are praying for the needed funds to make these improvements. Please consider making a special donation to this project.

Fun Day in La Puerta

We also had a wonderful Mother's Day and Children's Day activity in La Puerta. A great group of mothers and children came to celebrate with us, and we are thankful for the opportunity to keep investing in this mission work. Please continue to pray for La Puerta, that God would strengthen this young work and use it to reach more families.

As you can see, God has blessed us with this season of building! Getting these Nicaraguan churches their own properties and buildings is a priority for their future sustainability. Please consider giving to these projects.
