

Dear Prayer Warriors, March – April 2026

Thank you for your continued prayers especially during this turbulent time and aftermath of the **Category 5 Super Typhoon's destruction**. It was larger than Hurricane Katrina that hit New Orleans in August 2005. Katrina's winds reached 175 mph while Sinlaku's hit us on April 13th and didn't just pass over in a few hours like Katrina did in 6 hours, ours ***paused right on top of us for 3 ½ days with sustained winds of over 185mph.*** Damage for Katrina was estimated at $125 billion dollars with 1392 deaths. Although they haven't estimated the damage to our island, we have been without water and electricity for 4 weeks now since it's destruction hit. But thanks be to our God not a single person has died on the island though 6 men are missing out at sea.

In the picture above you can see we've lost the whole roof to our **activities center.** Here is where we held outdoor youth programs and **I store my tools** in the **tool room** (that got completely soaked). It's also where we build all the things we use in the ministry. The roof's 16 cross beams (purlins and struts) all need replaced with the tin roof and wiring for lights. Instead of covering the entire activity center, Lord willing, we're just going to try and cover the tool room, bathroom and supply room measuring 70ft X 55ft which is half of the original roof. Three of the original 8 rigid frame rafters are still standing, thank the Lord! Several of our wonderful churches have come together to help us buy a **solar-powered generator** that will give us electricity for lights, an AirCon and a freezer. The government is replacing poles and transformers as fast as they can but estimates are 2 to 3 months before they get to us. Please pray it goes faster because the heat is extreme at night when we try to rest in 85-100% humidity. Another church has generously sent DeWalt batteries, a few tools and a gas powered generator. I've been able to use solar-powered street lights. I carry them out in the mornings to be charged and back in again at night. Please pray for the safe arrival of the solar-powered generator and for the Lord to continue to supply the rest of the needs. ***God has been so GOOD!***

Our building was one of the first to get water. So, we've started a **new ministry** to help everyone we can by giving out free water to all who come to services and drinking water to those in need. Plus, after everyone has enjoyed our Bible study and soup, we opened up our showers. Everyone loves it. This storm has made our Christians more attentive to the needs of their friends and neighbors. I've personally been able to start 6 more Bible Studies on Salvation besides the 5 I'm already doing with folk. Jenny Zhang got saved and another young man is struggling with surrendering to God and eternal security. After the storm, everyone is eager to talk about God and heaven.

Please pray for: **1)** More souls saved; **2)** Jing Jing and her son, Titus, who is undergoing a major surgery; **3)** Gloria's pinhole surgery on her leg has been scrapped out 3 times and it's still not closing after 5 weeks. **4)** God to continue to supply our rebuilding needs.

Jesus said, "...whosoever drinketh of the water that I shall give him shall never thirst; but the water that I shall give him shall be in him a well of water springing up into everlasting life." John 4:14

Here's Discipleship in Action

Matt. 28:19-20; Acts 6:7

May – June 2026

The **De Leon** Family

Kevin got Saved!

Kevin got Baptized

Kevin starts witnessing

Kevin witnessing to John

Starting the Recordings in Chinese

Michael got Saved!

Michael, Joshua & Kevin
New Brothers in Christ eating!

Discipleship starts with us visiting homes and businesses to meet new people then introduce the true God (Jesus) to our new friends. Going through a thorough series of Bible Studies that are designed for English second language, they learn about Sin, Salvation, Heaven and Hell.

Sometimes we are blessed with their new life for only a short while like when 4 of the 5 **De Leon family** members got saved then 2 months later they had to migrate back to the Philippines. Thankfully we were able to direct them to a Godly church in their area. Now they're serving God there.

It's an even greater joy to meet people that are ***hungry to learn about God*** and are staying on island. **Kevin** is like that. We had lessons together for 4 days a week that lasted 3-4 hours at a time. Then I led him to the Lord and he got baptized with a burning desire to please the Lord in every area of his life. He's read "Pilgrim's Progress" and "Hudson Taylor's Spiritual Secret" and everything else I share with him. I've welcomed him into our Bible College and after using him as a silent partner, he has started making his own disciples and his zeal hasn't stopped! He's working on those in his neighborhood and at public school. Pray for his disciple named "**John**". He is an altar boy and is a challenge, but he's studying hard to meet it!

After returning from China where he witnessed to his grandfather and his dad in Taiwan, he realized we needed to put our Bible studies into the spoken format. So now, he, his mother and Jerry are helping me record the ***Audio Christian Discipleship Bible Studies*** to be available to share with their Chinese relatives. Please pray for this endeavor.

I led another young man named **Michael** to the Lord who is talented on computers and is helping me build a website. His father is stanch Catholic and there are demonic influences in the family background. They need lots of prayers.

Joshua is another youth I'm discipling who is unsure of his salvation which is a results of going to an interdenominational school in Hawaii that mixed him up. We've spent many hours and days studying God's word together and he's to the point he's 90% sure of his salvation. Pray for him.

Just before the Category 5 Super Typhoon ***Sinlaku*** hit us, **Jenny** accepted the Lord as her savior. Now, along with her sister (**Elsie**) and her father (**Peter**), they are being discipled to get baptized. Peter has already growing to the point he's become my silent partner for a new man (**Myles**) in a discipleship class last week. Both are hungry to learn!

Since the storm hit, I've started 6 more people on our CD Bible Studies. Please pray for God to work in all these hearts and we see many saved that are hungry to obey and follow God's Word!

As you see from the pictures, many of our Bible studies are held either in my classroom or in the activities center out back where we do lots of activities like building dog houses, tables and butchering ducks that keep the youth active. But since the storm destroyed the building we can no longer have such activities. **Pray for finances and workers for it's soon repair**. And of course almost all Bible studies and activities are incomplete without **food**. Good physical food to go along with the spiritual food they're learning from God's Word. **Please pray for:** *more hungry people to learn God's Word and be eager to share it!*

We are winning Souls & Planting Churches through **Discipleship!**

Jing got assurance & was Baptized!

Jenny got Saved!

Activity Center **before** Storm

Girls & Boys competed

All win with corndogs!

Peter helping me disciple.

Thank you for your **Prayers**,

Terry & Gloria McClure
