

Lesson 10

Questions

Directions: You need to answer 3 questions from 1-5. Please number your answers on your submission with the same number as below

1. Do you believe that men and women think differently? How do you know?
2. What makes one culture different from another? How is it possible to translate a practice or belief from one culture into another? Do you believe that all cultures could understand each other, if only they learned to “speak the same language”?
3. Do you think universal truths underlie all religious belief? Do you think that the different religious traditions and their different views are incompatible? Why or why not?
4. In what sense are philosophies products of their culture? How or how not, or to what extent?
5. While reading about any of the non-Western traditions, were you prompted to compare anything to some theory in Western philosophy? If so, which features of the two traditions did you see as comparable?
