

CBC Family,

March will be an active month at CBC. With a members' meeting, the launch of the capital campaign, Palm Sunday, and Missions Week ahead, let me highlight two priorities.

First, we'll unpack our plan to be debt free by 2033 through several strategic steps. Financial freedom will fuel ministry and mission for decades to come. We're already seeing encouraging fruit, such as our relationship with Salt and Light, the Korean-speaking sister church now meeting on our campus reaching our neighbors next door and beyond.

Second, on March 15 we're hosting our Mission Week, giving you a firsthand look at how God is working through CBC locally and globally. We're excited to welcome David C., who will share how Mission India plants churches and supports women and children throughout India. Let's gather expectantly as we seek to glorify God by making disciple making disciples.

Grace and peace,
