

### DEAR PARTNERS

We always want to start by thanking you all. God is using you to reach Thailand through us. We are merely an extension of you! I have said it several times but it cannot be said enough – every prayer prayed and every dollar given is a participation in the Great Commission. It is not simply a humanitarian effort, but obedience to our great God and King.

### FAMILY UPDATE:

It's been a while since our last update. That's because this season has been so busy, and we have a lot of good things to report. First, our family is doing well. We praise God that we are on stable visas. Danielle can continue homeschooling Judah and Gabey. Judah is eight years old, and Gabey just turned five. Danielle has poured her heart into homeschooling; she is obviously called to it. Please pray for God's blessing on her ministry to our children.

Danielle and the kids follow my visa. Currently, I teach at an international school. This has been quite a learning curve and has taken precious time away from ministry. While we are grateful for another year in Thailand, we have quickly realized that this visa type will not be sustainable in the long-run. Please pray that God will open up new options for us because currently there are few.

### WORKSHOP

This year, Nico (co-elder/teacher) and I have conducted several workshops. There is a group about an hour's drive away who attended our foundational workshops last year. Timothy Two Project International seeks to provide theological training to pastors who do not have the opportunity to study formally at a seminary. The foundational workshops blend systematic and practical theology to help pastors shepherd their flocks more faithfully. This year and part of last year, we had the opportunity to build upon that foundation with workshops of our own. I was most excited to teach a workshop that I put together on preaching Christ from the Old Testament. Please pray for pastors in Thailand to see how each text organically leads to Christ and applies to the Christian's life in him.

Another group from a neighboring country, who will not be named for security reasons, finished the four foundational workshops, learning more about how to know, trust, love, and serve God. Although some workshops fell in the middle of important agricultural events, most participants showed up ready to learn. This is a sacrifice many of us in the West cannot readily understand, but the point is they sacrificed to be there. Please pray that these pastors will drink deeply and often from these biblical truths and be sustained in a dangerous field of ministry.

## CHURCH

Our church is doing well. August 3, 2025, Sovereign Grace Fellowship was officially constituted as a church. We are roughly a year old and still enjoying a season of peace. Many of our members are other missionaries, and they were in the US over the summer. We are grateful that they are back. We've had many visitors and voted to receive one new member. Please pray for even stronger unity and love centered around the gospel.

We have a Thai service once a month with the long-term vision of planting a Thai church. The service is well attended, but we want to see strong Thai leadership. Currently, we are discussing ways to find men interested in a pastoral internship, with the potential to study at Covenant Baptist Theological Seminary. Please pray that we will continue to receive visitors, communicate biblical truth clearly in Thai, and that God would bring the future officers of a Thai church.

## RBNet:

I had the opportunity to attend Reformed Baptist Network's general assembly in September of this year. It was a great time to connect with many like-minded brothers and hear reports of God's work mostly in North America, but also around the world. A dear brother connected me with an AI translation program designed specifically for biblical and theological translation. Another man introduced me to his identical twin brother who lives one hour's drive from us in Chiang Rai. You can't make this stuff up! We are continually amazed at the twists and turns of God's providence. I had a good time of fellowship and heard very encouraging messages from Joel Beeke and others about persevering in ministry and loving God's sheep. Please pray that these connections will manifest tangible fruit in Thailand.

## POTENTIAL OPPORTUNITY WITH CTS:

I have a meeting with two OMF leaders about the potential of teaching at Chiang Mai Theological Seminary (CTS). This would not only give us a more sustainable visa, but it would also help my Thai, since I would be teaching in Thai. Since we finished language school, I have had to fight for time to continue studying Thai. Who knew it would take so much time and effort just to have permission to live here! Of course, the biggest opportunity is the theological formation of pastors, which we pray will impact future generations. Please pray for God to open doors that no man can shut and shut doors no man can open.

## LECTIO AND TRANSLATION:

I have a meeting on Saturday to set up an AI translation program for use in Thai. This program was designed for translating theological resources. We are praying to gather a team of trusted Thai's, who know English, Thai, and theology well enough to produce quality translations. We would like to translate many resources from Chapel Library and Broken Warfe, with the intention of creating resources for laymen and seminary students. I have had some preliminary conversations with Covenant Baptist Theological Seminary about making their programs available in Thai. What a wonderful resource this would be to the Thai people! Please pray that God will bring the right people and pieces together to make this a reality.
