Missionary Note: Charles & Mary Joyce – Burkina Faso

Over the last few years, Charlie had been having issues with dizziness. Then on July 29, Charlie was transported to the hospital by ambulance. Later, we found out that he experienced a 'brain bleed,' which is a type of stroke. The brain bleed stopped, but he will need to continue various therapies and healing. We praise the Lord that we were in a place he could get immediate medical attention. The stroke did not affect his talking, but he is currently walking with a walker and experiencing some weakness on his left side. Pray for Charlie over the next few months as he heals, and pray that God would give us wisdom.
