

Hi Kids Ministry team!

Exciting news! We heard your feedback and requests, and we're so excited to announce new improvements coming to Kids Ministry | Preschool!

We originally planned to share these updates during this month's training, however training has been rescheduled to **Sunday June 7, 2026 3:00pm- 4:30pm**. We believe these updates are important and beneficial so we have decided to implement them now. We will be joining you in the rooms for the next couple of weeks to provide hands-on training and support.

(Please know parents are receiving an email today regarding these updates)

Starting this Sunday **May 3rd**, we'll have a new **service flow document** displayed in each classroom. It breaks down the timing for each part of the service so it's easy to follow and helps everything run smoothly.

Snack time updates:

Each week, we will be offering either graham crackers or animal crackers during snack time. A clear acrylic board is posted outside the classroom door so parents can see which snack is being served that day. **Parents will always have the option to opt out if they prefer.**

Here's what you need to know:

- Please ask parents at check-in if their child is able to participate in snack time, and let them know which snack is being offered that day.

Example:

"Good morning! We're so glad you're here. Today during snack time we'll be offering animal crackers. Is that okay with you?"

- Please make sure to mark the form next to the child's name after speaking with the parent.

Check-in & belongings:

- Encourage parents to bring **labeled sippy cups** for their children. (Water preferably)
- Labels will be provided if needed, feel free to ask the parent to label the cup while you check in the child(ren).

What can you expect over the next couple of weeks? Smaller class sizes! We're excited for this next season and can't wait to share more with you at our June training. You'll hear all about the new age breakdowns, classroom improvements, and our fun, engaging play and worship curriculum!

Thank you for showing up, for loving these kids so well, and for being such an important part of this team. 🧡
