MEXICO

We rejoice that you've taken time again to read our praises and prayer requests! Thank you! Although summer is nearly over it is still hot here in Saltillo. Thank you for holding the line for us, as we reflect on **Jeremiah 8:20 "The harvest is past, the summer is ended, and we are not saved."** What a lamentation! Even though its been a productive year so far, and a fruitful summer, **there is still so much work to be accomplished for our God!**

I consider July to be our most important month of the year because we always have our World Missions Conference. **The Lord spoke to all of our hearts about our commitment to worldwide evangelism**, starting here in our Jerusalem. I thank the Lord for the missionaries and all their messages and presentations. We had an international banquet as always where we all made different foods from all over the world and became more acquainted with different cultures and their needs. Our **faith promise commitment also was increased**, praise the Lord! Another blessing was the commitments of the newer folks to be more proactive in evangelism. Also in July we held **baptisms and various discipleship classes** for the new converts. On July 28th, **I celebrated being a child of God for 33 years!**

In August I met **Emanuel, who got saved and baptized**. The timing was of the Lord as his family had just started coming to church and gotten saved when he came back from the USA for some medical procedures. Because of several circumstances, he hasn't returned to the States so I've enjoyed being able to disciple and mentor him. On August 21-22, we held our **Annual VBS**. Praise the Lord for the salvation decisions and the decisions made to be better soldiers in God's Army!

Please pray and consider making a special offering to help us complete the **church parsonage** which will be used by us and whoever takes the church if and when the Lord moves us on to our next work. Please see the **side bar for details, or call/text me!** Thank you so much for your time, prayers and financial support!
