

Local Partnership Prayer Scavenger Hunt

Reaching Our World - Small Group Resource

Prayer is an important facet of reaching our world and supporting our community partners. A prayer scavenger hunt is a fun way to make prayer an interactive event.

Here is a sample prayer tour for you to do as a small group!

Prior to the event, consider looking at the websites or social media pages, of the community partners, for recent newsletters or posts to see what needs are pressing for them. This can be a great way to empower those with administration, serving or intercessory gifts in your group.

Additional Leader Resources

- *Small Group Idea Book* by Cindy Bunch

- How was this experience for you? What did you enjoy most about it? What was stretching for you about it?
- To which location did you feel most connected? Why? About which ones do you want to learn more?
- For what, if anything, is God asking us to continue to pray? Are there any next steps that we need to take?
- What follow-up options do we have to watch for and celebrate answered prayer?
- Consider how this experience can be a blessing to others. Let your coach know if you have any stories to share!

*Small Group
Dialogue*

Prayer Scavenger Hunt Instructions:

- Drive to a location to begin.
- Remain in the parking lot (or stay on the sidewalk), being respectful of the property. If the business is open, please stay off to the side so as to be respectful of the people coming or going.
- Pray over each location and their ministry, blessing them and the work that God is doing through them.
- Go to next location and repeat.
- Gather at a final location like a coffee shop or a home to debrief.

To go to all of the locations, we suggest you start at either location 1 and work your way down the list or the reverse.
