

CROSSROADS

COMMUNITY CHURCH

Church,

In June of 2021, God began a mighty work here in Barberton, Ohio. At that point in time, there were about 45 men, women, and children who said “yes” to God as He called them to help us launch this Campus of Crossroads Community Church. I praise God for those willing individuals and the numerous talents that God granted them for His purposes in those early days.

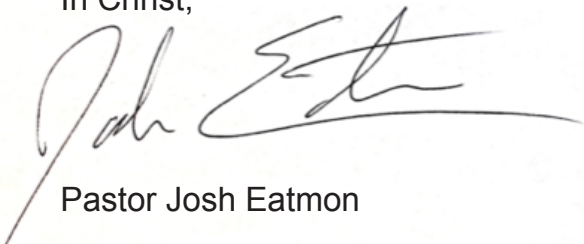

Now, just 5 years later, we have an amazing story to look back on. Hundreds of people have come to worship with us at the movie theater. More than 40 people have been baptized in the waters of Lake Anna. There are more stories of life change and dedication to the Lord than I have space to share here. God is so good!

The best part of all of this? HE ISN'T DONE! God has now provided this campus with an amazing opportunity to continue this legacy of ministry and faithfulness just two miles from the theater. This building offers a greater opportunity for ministry to kids in rooms that will be designed specifically for them, ministry to adults in cozier, more inviting spaces, and even ministry to the community with the awesome green space and large rooms for outreach opportunities!

Yes, the building will take some work, but think of all that sweat-equity as the payment for lives being impacted for all of eternity! I know first-hand what this team is capable of and I cannot wait to see what God is going to do through YOU as He grants you a place to call home. My prayers and desires are to see and hear stories for many years to come of the eternal impacts that will be made in/through this building!

Join us now in prayer and support of the building, and prepare yourself physically and spiritually for the journey ahead. Also, know that I am with you in spirit and in my prayers. God has great things in store!

In Christ,

Pastor Josh Eatmon
