

The Mead Family

Celebrating 20+ years in missions

AUGUST 2026

Bible Distribution and Training Seminar

I returned to Senegal at the end of July to coordinate with the ministry in Senegal and Gambia to distribute Wolof Bibles to various church members and leaders. During my trip to Gambia, John Akin, who oversees Wolof media production for our ministry, and I conducted a seminar on evangelism and media. Nearly 70 people attended. We introduced a website that will allow us to share all the resources necessary for these men and women to conduct Bible studies with their Muslim friends and family. Many expressed gratitude for this much-needed resource and gladly committed to reaching at least one Muslim this year with the gospel.

Training. Recruiting. Church Planting

Pastor Lawrence is doing a tremendous job leading a Bible study in Latria, Gambia. Because of a generous donation from a church in Florida, we were able to provide a projector and speaker system for Lawrence to use to show the Jesus film. We were also able to provide a church planter in Guinea with a projector. Pastor Christophe Da Silva is from our city in Senegal and is planting a church in a village in Guinea. God is using Christophe greatly. We are making plans to visit his work in the near future and train pastors and church members in Guinea to engage with and evangelize Muslims.

Please pray for me as I file to retrieve our recognition number for BIMI in Senegal. The original paperwork was lost. We are praying that it will not be complicated to locate the original file.

We will receive a missionary couple and their family from Haiti in the coming months. They plan to partner with our church in Northern Senegal. This is an answer to prayer! We will complete construction on an apartment on our church property for this couple to live in. **Please pray, as we need about \$9,700 more to finish the apartment and furnish it for this couple.**
