

FREQUENTLY ASKED

Questions

- **What are the age groups for students attending Crossings Camps?**
Student Camp is for those entering seventh grade through graduated high school students.
- **We have never been to the property. Can we come and check out the facilities?**
We would love to have you and your leadership team come and visit Skycroft before camp. Call us year-round at 301-293-2202 to set up an appointment.
- **Do you have a place where we can do laundry during camp?**
There are no laundry facilities available on property. The nearest laundry mat is located in nearby Boonsboro, about 10 minutes away.
- **Do adult leaders need to submit a Participant Release Form?**
Yes, all camp participants (youth and adults) must submit a completed Participant Release Form.
- **Can parents or other members of our church visit while we are at camp?**
Occasionally, parents and/or church members may visit during worship and mealtimes with advance approval from Crossings. All visitors must sign-in with Skycroft at the front desk in the Registration building.
- **What if I have a participant with food allergies?**
Skycroft works hard to accommodate for each of our guests and any food allergies by serving buffet style along with having a fruit and salad bar. Serving buffet style allows our guests to choose from the items that are safe for them to eat. With the vast number of different food allergies, we cannot guarantee that cross contamination will not occur on our buffet line or that one of our vendors might substitute a product due to their supply. Due to the number of meals that are served each day, it is also difficult to cater meals for individuals, many with different allergies.
It is for these reasons that we suggest for campers and adults with severe food allergies store any special meals in a refrigerator located in their lodge so there is not a chance of illness or allergic reaction. Please notify Skycroft in advance if someone in your church group requires a refrigerator (one per church) for the purpose of storing food. We do have a commercial microwave at the entrance of our dining room where the meals can be reheated.
- **Is there a camp nurse?**
We do not have a camp nurse. We will have a first aid coordinator that will be able to address all accidents as they happen and can provide basic first aid supplies for minor injuries. Churches are responsible for keeping and disseminating campers' medications; Skycroft provides a lock box at check-in that may be used for this purpose. Churches are responsible for their own transportation to seek non-emergency medical services.
