EXPLORING GOD'S LOVE
THROUGH CREATIVITY

www.LaceyPres/TT

EXPLORE ART SCIENCE AND ENGINEERING

Kids are invited to join us for a summer of fun and learning! Thrilling Thursdays is a long-running day camp where we explore God's love through songs and stories, games and learning. We want each child to know:

Jesus made you,
Jesus loves you,
Jesus wants to be your friend.

This summer we are using STEAM- centered, hands-on learning to explore the world around us focusing on learning through the creativity that God has given each of us.

Using experiments and activities to guide our investigation and discussion, we turn all our exploration back toward God, to see God's love for us on display!

1

ENGINEERING & ROBOTS

We will explore the world of mini motors and mechanical devices, building our own robots to assist in our creative adventures.

2

CREATION & CRITTERS

Touch and hold exotic creatures and learn about their features; explore their habitats and consider our care of God's creation.

3

GEOLOGY & CHEMISTRY

Through experiments, investigation and observation, we will learn how various materials interact with each other & change the world around us.

4

SOUND & PHYSICS

How are we impacted by sounds? We will build our own musical instruments and explore how sound affects art & nature.

ENJOY THE ADVENTURES

God writes the Gospel not in the Bible alone, but on trees and flowers and clouds and stars.

- Martin Luther

When: **June 29, July 6, July 13, July 20**

Thursdays from **10am to 2pm**

(registration opens at 9:30am)

Cost: **\$10 per person** per session
