

FRIDAY WORDS

September 11, 2026

People, all people, regardless of how young or old; rich or poor; strong or weak; male or female are made in the image of God. In Genesis 1, it is only human beings that are said to be made in the image of God. This is often a very mysterious and misunderstood idea: being made in the image of God. But ultimately it means that we should treat all people with the dignity and respect they deserve as image bearers. Never think you are better than another person, or that certain persons have less value. Everyone's ultimate identity and worth is grounded on the image of God implanted upon their very existence as human beings.
