# Lighting Tech Role Description

## Role Overview

The Lighting Tech ensures all lighting cues are executed smoothly and on time during the worship service. While this role does not involve programming, it is essential for maintaining the atmosphere and flow of the service by following the pre-programmed lighting cues.

---

**Gather** on Sundays to connect to Jesus

**Serve** on the Crew to reflect the Person of Jesus

**Grow** outside of Sundays to better know the Person of Jesus

---

**Key Responsibilities:**

- **Execute Cues:** Follow the order of service and trigger lighting cues as needed for each section of the service (pre-service, worship, speaking, videos, etc.).
- **Stay Focused:** Pay attention to the flow of the service and anticipate upcoming cues to ensure smooth transitions.
- **Communication:** Stay in sync with the Production Lead, Worship Leader, and other team members to respond to any on-the-fly changes.
- **Maintain Excellence:** Operate lighting equipment with care and consistency to help create an atmosphere where people can engage with Jesus.

---

**Expectations:**

- Arrive on time for scheduled services and rehearsals.
- Follow the order of service closely and execute lighting cues without distraction.
- Stay attentive and adaptable throughout the service to accommodate any adjustments.
- Commit to learning and growing as part of the production team.

By faithfully hitting each cue, the Lighting Tech helps eliminate distractions, enabling others to focus on worship and encounter Jesus.
