We use cloud-based services and software providers to help us run Christchurch, including Microsoft 365, Google Workspace, ChurchSuite, Sage and Subsplash. Some of these providers, or the organisations they use to deliver their services, may store or process personal information outside the United Kingdom, including in the United States.

Where personal information is transferred outside the UK, we will ensure that the transfer is permitted under UK data protection law and that appropriate safeguards are in place where required. Depending on the provider and the circumstances of the transfer, these safeguards may include the UK Extension to the EU–US Data Privacy Framework, an International Data Transfer Agreement (IDTA), or the UK Addendum to the EU Standard Contractual Clauses.

If you would like further information about international transfers involving your personal information, including details of the safeguards that apply, please contact our Data Protection Lead using the contact details provided in this notice.
