Hello Kinney Family!

We have an exciting praise update from one of our ministry partners, Faithful Churches in Cuba!

One of the local churches in Nuevo Vedado, Havana, has begun construction on a new building! You may remember, Pastor Josh was able to worship with this church during his 2024 trip to Cuba, and he and Abner Herrera traveled to and helped with a pastoral workshop with Pastor Andy, the pastor of this church, last year.

After purchase of some land, over the last 6 months, the church has been able to gather materials and begin construction on their new building. They've completed the outer structure, which will allow them to start meeting there. This is a huge answer to prayer, as this church's original building was taken by the Cuban government, and they've outgrown their current meeting place.

Continue to pray the Lord would provide what is needed for Faithful Churches and the congregations they serve, like Pastor Andy's, to continue to spread the gospel and strengthen healthy churches in Cuba!
