

Your Story

The purpose of a personal story is letting other know about your life-changing, personal relationship with Jesus. Developing your story is easy and will provide you with a method of telling others about Jesus that is personal, memorable, and difficult to doubt.

Pieces of My Story

To help you develop your story we have divided it into five sections.

1. Life Before I Became a Christ-Follower

Here, you are describing what your life was like before receiving Jesus. It is good to mention positive and negative and you may want to include things like good moral living, addictions, dominating sins, internal conflicts, etc.

2. Circumstances/Events Leading Up to Becoming a Christ-Follower

You are sharing some of the things that were going on in your life that God was using you to bring you to a point of receiving Jesus as Savior or rededicating your life to Him. Starting points could include things like new problems, Christians that came into your life, major life changes, etc.

3. HIS STORY: What I Came to Believe About Jesus

Here is where the Gospel is shared. Would they be able to pray and receive Jesus as their Savior right after they heard your story?

4. When and How I Became a Christ-Follower

Here is where you would declare that you believed the Gospel and were ready to receive Jesus and then describe when and how you received Him. You can include things like date, location, people you were with, person who helped you receive Jesus, etc.

5. Life as a Christ-Follower

TIME TO REJOICE! Here is where you describe your life now that you are following Jesus. You may want to refer to some of the things that mentioned earlier in section one and describe the changes that have come, or you can simply describe what Jesus means to you now. You should also express your desire to grow as a disciple of Jesus.
