01

BURUNDI

We're supporting a hospital expansion project, including registration, triage, and outpatient spaces. This project will serve a large rural population in an extremely remote area, in one of the most economically vulnerable nations on earth.

02

KYRGYZSTAN

We are investing in a Christian community clinic to expand their technical and medical equipment capacity. This will elevate their level of care, allow them to train more residency students, and create greater access to people in a community increasingly closed to the gospel.

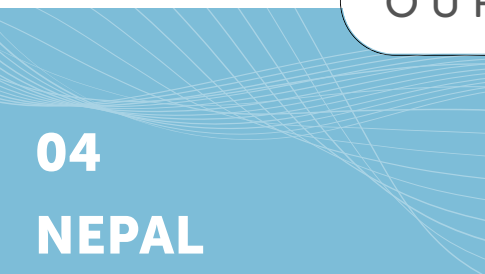

03

MONGOLIA

We are working with Christian veterinarians to develop the pre-eminent large animal treatment and training facility in the country. This facility will train veterinarians, introduce them to the hope found in Christ, and equip them to visit and reach semi-nomadic herders across the country.

OUR ACTIVE PROJECTS

04

NEPAL

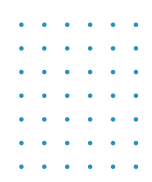

We are coming alongside mission-minded doctors and church leaders to complete and outfit a comprehensive community outpatient clinic. The center will provide primary care, dental, vision, physical therapy, other specialties, and discipleship training.

05

ROMANIA

We're collaborating to build Romania's first life-affirming maternity hospital, providing comprehensive, gospel-centered care from pregnancy through postpartum in a loving and dignified environment.

06

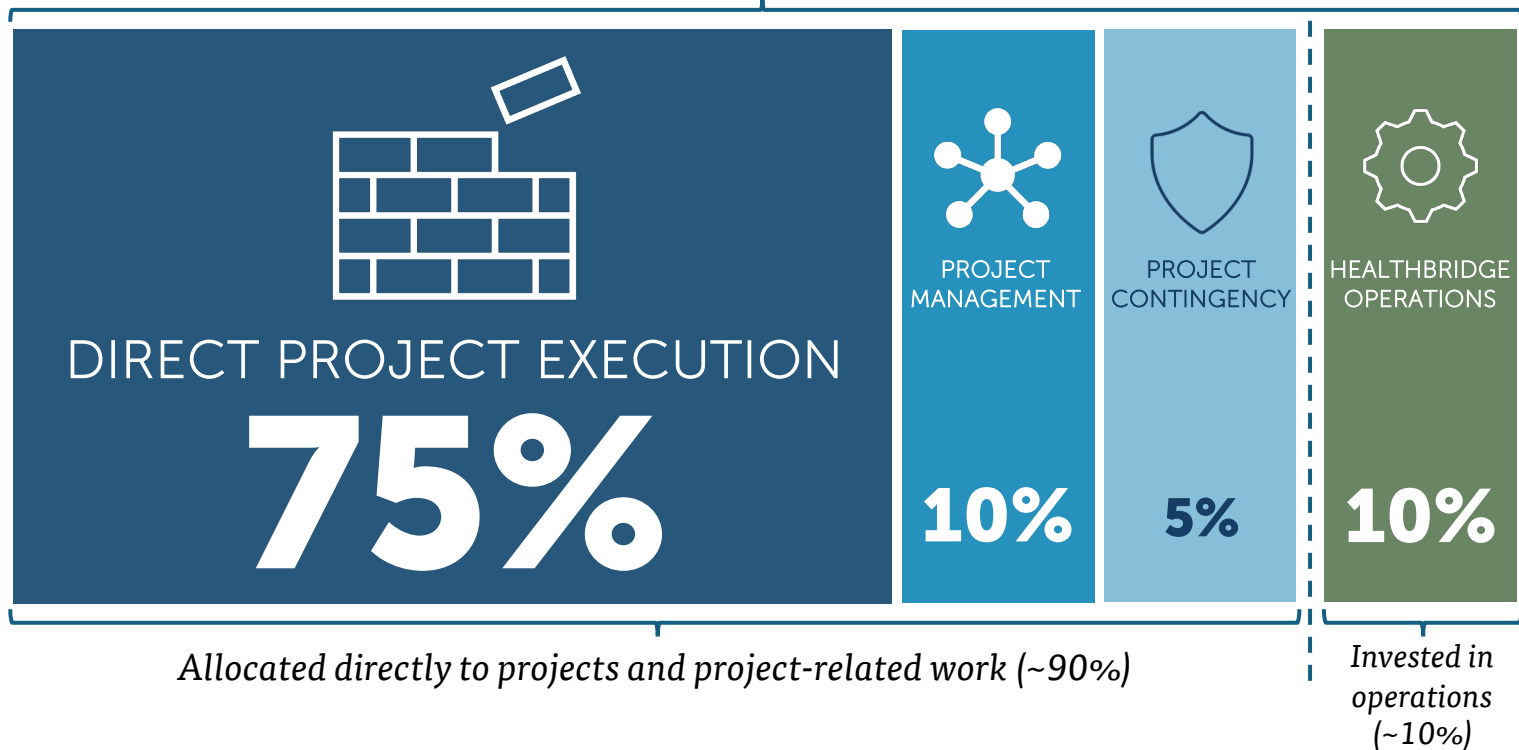

NORTH KOREA

We are partnering to complete a treatment, rehabilitation, and training center for disabled children in outlying areas of North Korea, and eventually in Pyongyang. These centers will provide specialized treatment to patients, support to their families, and training for North Korean doctors.
