

October Update

The Master Planning Team, staff and leadership are busy finalizing the new church facility and site design concept. If all continues on plan, renderings will be revealed at the first Next20 Sunday, **October 25!** That four week sermon series will culminate with a special Celebration Sunday, **November 15.**

In developing the Master Plan, the Project Team has considered not only the impact and role that Champion Fellowship's ministry will play locally, regionally and globally in the Next20 years, but also a responsible stewardship plan that supports and grows that ministry. Balancing both in a world of rising costs is not easy, but **easy was never the goal.**

Twenty years ago, the founders of this local body determined that they would be faithful: to Christ, to God's Word, and to each other. As Tim stated at Vision Sunday event back in February, each family who is "in" this local Body will need to prayerfully decide how they will be "in" for this Next20 journey.

So mark your calendars!

Let's gather to talk about why this is so important, beginning **October 25**, then celebrate God's faithfulness – and our response – on **November 15.**
