Seven Years of serving in Japan

Hello, we are proceeding through the semester. I finished my first block class, covering the first half of the Book of Mark. My second block class, the second of half of Matthew will be at the end of the semester.

We were blessed to have received a washing machine for the guys' dorms, greatly reducing our laundry cost by half. In addition, we received a gas stove-top, and already, I felt inspired to do some cooking again.

I faced some issues with my hearing aids. My left hearing aid, the bluetooth, seemed to have some malfunctioning in the mic. Thankfully, the repair cost is not too high. I received a loaner pair, as they took my hearing aids to see if it could be a connection issue. Thankfully, the repair went quickly, and it is working again.

We celebrated the 20th anniversary of the church in Ginowan. We simply celebrated what God has done with the church and community, leaving inspirations for the future of God's provision.

The Ministry building next door is nearing completion, as we are finishing the painting downstairs. With our growing children's ministry, we will be using the different floors for the different age groups, with the youth taking the soon to be finished basement.

Recently at our potluck, I made some Mac and Cheese for the church. Or else, as I would like to call it, "Mac and Ton of Cheese." The people were blessed by it, and they were surprised it came from me. To my surprise and delight, my dish was completely consumed.

Next month, we will be hosting the Pastors' conference, and one of our former students will return and intern with us for a season. It was a blessed time last year, and I look forward to what God may stir up this year for the pastors.

I am grateful for those who continue to support and pray over the ministry in Japan, reaching out to the people here, as well as raising up young aspiring believers in the Word. If you wish to give further support, here is the updated link for the GoinChrist Outreach page: <https://goinchrist.com/missionaries/entry/24543/>

#### Prayer Requests

Some students have been getting sick recently, so prayers for everyone to remain healthy and safe.

Preparing the work and process of the Summer of Service.

For the church family in Higashimatsushima. For the Robbs family, and for little Emily and Ethan to grow healthy and strong and to know the Love of Jesus. For the Cameron family living in the next town, for their two sons.

For the students, for them to grow in the service and knowledge of God. Some expressed growth from previous semesters or showing much growth here, and I pray that they will always seek God and worship Him.

As I was preparing for SoS Japan, I was invited to join the SoS Montana in July. I will pray for God to provide if He desires me to go.
