

Pathways Update

Church Family,

We wanted to give you a brief Pathways update on project scope, campus schedules, and bridge financing.

SCOPE

With pledges just over \$23M and project scope near \$27M, we are taking a hard look at how to accomplish our goals while paring back some wish-list items. We will update the church as we refine numbers with the contractor and move closer to the fall.

CITYRISE WEST U BAPTIST

We are continuing Construction Documents with our architect and anticipate filing for permit in September.

- **Milton St Parking Lot:** Construction begins Monday, June 15. The lot will be closed for 10–12 weeks. See the reverse-side map for alternative parking.
- **Amherst St Parking Lot & Preschool Playground:** We hope to begin after Milton St is completed and are now filing for permit.
- We will use the rest of the summer to refine this campus's project scope and update the congregation as details are available.

CITYRISE MISSOURI CITY

Though we are still seeking incremental insurance proceeds with the insurance company, the church has authorized renovation to proceed. We expect the rebuild/renovation to be completed in late summer, with our New Beginnings kickoff in the new space on Sunday, September 13.

We are still seeking a parking lot permit and hope to have it soon. We believe all renovations will be completed by early fall.

CITYRISE BELLAIRE

The landscaping project is taking a longer permitting road. The city's requirements have caused a 4–6 month delay. Please pray as we seek a specific use permit for this project.

BRIDGE FINANCING

Because the scope requires a plan to manage the 30-month build and 36-month generosity campaign, we will bring a bridge financing motion from the Executive Council and Finance Committee sometime in late July or early August.

Thank you for your support of Pathways. These are exciting days!

Expectant,
Pastor Roger
