

# IMPACT YOUR CHURCH

## Photography Team

*Are you passionate about capturing moments that tell a story? The Photography Team uses their skills to highlight the energy and joy of the worship service and other events, helping others see the life of the church.*

### Positions Available

- **Photographer:** Capture moments during worship services and special events, focusing on the people, atmosphere, and key events.

### Time Commitment

*Serve once or twice a quarter. Weekend worship volunteers will typically take photos for one service and the fellowship time between services. Some other events that we like to capture occasionally include NXT GEN, NC Youth, and NC Kids events.*

### Who's a Great Fit?

If you're skilled with a camera, enjoy editing, and have a knack for capturing emotion and action, this role could be a great fit. Perfect for those who see beauty in moments and want to share that with others.

### The Impact

By serving on the Photography Team, you're helping people see the church's mission in action. Your photos capture the heart of the church community and inspire others to join in and experience it for themselves. The photos you would take will often be used for website, social, and other promotional material.
