A word from the Executive Directors

The Villemaire Family

Aloha! If you haven't had a chance to meet us, we are the Villemaires. Barbara, Aaron, Elias, and Ezequiel. We officially took over for Kyle and Corrie in June of this year and it has been an honor and a joy so far!

A little bit about us

Barbara was born and raised in Brazil and Aaron in Vermont. We met through Circuit Riders, a YWAM DTS in Huntington Beach California. We got married in 2021 and moved to Kona where we served at YWAM for 4 years. Living on campus for the entire duration! Our two boys were born 18 months apart, one in May 2023 and the next in November 2024.

In April 2025 we lead a team on a 10 week, 8 state outreach tour that we called "Justice For the Unborn". The states we targeted were ones with the highest abortion statistics and the ones where abortion was legal through all 9 months of pregnancy.

On this tour we visited Portland OR, Sacramento CA, Denver CO, Minneapolis MN, Burlington VT, Newark NJ, and Washington DC. In each location we visited local pregnancy centers, prayed at capitol buildings, advocated for the unborn at universities, and stood as sidewalk counselors outside of abortion clinics. We were shocked to experience first hand the climate of our culture in this nation around the issue of life. We knew we had to do more.

In June, in the final weeks of our tour that we received a call from Kyle and Corrie asking us to pray about becoming directors of LIV's Hilo clinic. As we prayed it quickly became abundantly obvious that we were meant to say yes to this role. So in September of last year we moved to Hilo and jumped into the pregnancy center world with ZERO prior experience!

Now, 1 year later we have taken over as Executive Directors while still directing our Hilo clinic!

Services provided this quarter

Clients Served : 96

At risk clients : 47

Pregnancy Tests : 103

Ultrasounds : 130

Ka'u Disaster Relief

In the aftermath of hurricane Lala the southernmost communities of our island with without power and water for upwards of 11 days.

Shelby and Abby from our Oceanview clinic led the charge and we came together with volunteers from all three of our locations to distribute thousands of dollars worth of materials including diapers, wipes, cleaning supplies, buckets, and clothes.

We set up aid stations in Oceanview and at Na'alehu Assemblies of God. Between the two stations hundreds of people received much needed supplies and prayer. It was truly inspiring to see our island come together to serve each other in this time of need!

Walmart Diaper Drive

On Saturday October 3 we had the privilege of partnering with Kona police department for a diaper drive outside of the Kona Walmart!

The event was a huge success! We received hundreds of diapers donated that we will distribute between our 3 clinics. On top of that we received over \$1,400 in cash donations.

Huge thank you to KPD and our wonderful volunteers who came out to make this event happen. We are excited to see what more may come from this partnership!

Client Story

We had a client come to LIV a few months ago. She is a nurse who had moved to the island just one month earlier, and her partner was still living in Texas.

During her appointment, we took the time to walk alongside her, listen to her concerns, and answer her questions. She also received an ultrasound. However, she was very certain that she wanted an abortion because she was alone in Hawaii and the timing of the pregnancy was not ideal.

After seeing her baby on the ultrasound, she was amazed by how much the baby already looked like a baby. Even then, she was still unsure about continuing her pregnancy.

After her visit, we scheduled a follow-up, but she never responded. We tried reaching out several times and didn't hear anything back. As time passed, we began to assume that she had gone through with the abortion.

A few months later, while our LIV team was gathered for our monthly prayer meeting, we received an unexpected text from her. She was finally

responding to one of our messages, sharing that **she had decided to keep her baby and had already found an OB to continue her prenatal care!**

It was such an encouraging moment for our team and a beautiful reminder that even when we don't hear back from a client, we never know what God is doing in her life. Sometimes we get to plant the seed without immediately seeing the fruit.

Participate

Let's believe for greater things

LIV is in a season of believing for financial breakthrough! Our goal is to raise \$7,000/mo (or \$84,000 annually) in recurring or pledged donations to maintain the level of growth we are at.

Can you help us reach our goal?
