## Magnolia Tree Pruning

At the recommendation of the trusted arborists who have cared for the beautiful magnolia tree on Covenant's campus for many years, the tree will be pruned in the coming month to ensure that it remains healthy. The branches that are currently in contact with the Fellowship Hall building will be pruned to ensure several feet of clearance between the tree and the building, and the branch hanging low over the walkway will be cut back to prevent safety issues. We trust that the magnolia will continue to flourish, offering shade and beauty to our campus and congregation for generations to come.
