

Kids Conference FAQ's

Who should come to Kids Conf?

The conference is a joyful and faith-filled experience designed for incoming 1st–5th graders who can thrive in a group setting and follow directions with minimal guidance. We are not equipped to provide one-on-one assistance or frequent redirection. If your child needs extra support, it may be best to wait until they are a bit older. We trust God's perfect timing and believe He has the right space and season for every child to grow and flourish.

How are leaders selected?

Every conference leader and helper with Victory Kids is a trusted volunteer from our church who has completed a thorough selection process. This includes:

- A completed and approved volunteer application
- A criminal background check (only for ages 18+)
- Attendance at our mandatory Victory Kids Conference orientation or an alternative personal meeting.

We take great care to ensure that our team is well-prepared and committed to creating a safe, fun, and Holy Spirit filled experience for every child.

What is the food like?

Our amazing food team provides lunch for the kids on Saturday. Saturday's lunch will be hot dogs.

If your child has any food allergies or dietary restrictions, please send them with a labeled lunch bag. Unfortunately, we are not able to provide special accommodations for food needs.

A light, gluten- and dairy-free snack will also be served on Friday night!

Will my child get wet?

Not this year! If the weather that weekend is hotter than expected, we may add a few water options during activity time, but they will not be soaked or need to change.

How are medications handled at the conference?

All medications—including over-the-counter items like ibuprofen, Tums, inhalers, and EpiPens—must be turned in to the onsite nurse at check-in. Parents should turn in medications in their original packaging with clear labeling, including the child's name and dosage instructions. A professional registered nurse will be on-site to assist with medication and any medical needs or injuries. For your child's safety, all medication must be stored and administered by the nurse. Please remain available by phone during the event in case we need to contact you.
